### SPANISH HYBRIDS

(Spanish by Spanish)

**AMIGO**—Yellow Sweet Spanish hybrid, highly selected onion. Vigorous uniform high globe with resistance to "Oregon strain" pink root. Very free from doubles. The skin, an attractive medium yellow, will adhere well in handling and storage. The flesh is fairly firm and mild.

**CONQUEROR**—Yellow Sweet Spanish hybrid, highly selected for uniformity and vigor. Fairly free from doubles. This onion has a small refine neck for earlier maturing and curing. The skin is of medium yellow, and the flesh is fairly firm and mild.

### OPEN-POLLINATED

**RINGMASTER**—Selected Utah White Sweet Spanish, pink root resistant, single centered, making it especially desirable for processing of onion rings. Dry skin is a very white color and adheres well in handling and storage. Good keeper and the flesh is fairly firm and very mild.

**YELLOW SWEET SPANISH "Winegar"**—Highly selected vigorous globe to high globe, dark yellow scale and adheres well in handling and storage. Selected for greater depth and less doubling. Flesh is fairly firm and mild.

**YELLOW SWEET SPANISH "Henderson"**—Attractive vigorous high globe, with a rounded base and top. The neck is small and well maturing. Matures about ten days earlier than Winegar. Skin color is a medium yellow. Adheres well in handling and storage. This onion is non-doubling with a large percentage of complete rings. The flesh is very mild.

**YELLOW SWEET SPANISH "Utah"**—Medium maturing high globe with dark yellow scales. Selected toward non-doubling. The flesh is firm and mild.

**YELLOW SWEET SPANISH "Peckham"**—Highly productive, long storage Spanish. Very attractive bronze scale which is tough and adheres very well in handling and storage. Well adapted to mechanical harvesting. The flesh is firm and somewhat pungent.
