### FREE PROFIT GUIDE for...

### Farms and Ranches

The free booklet, "Budgeting for Profit", helps you plan for a successful year by anticipating your income and expenses in time to make the changes required to assure a satisfactory profit.

The booklet shows how a PCA loan tailored to your needs can buy labor-saving machinery or provide funds for paying your operating expenses as they become due.

PCA loans cost less because you pay interest only on the money you actually use, and only for the time you use it. Your payments reduce the balance subject to interest, lowering your loan costs greatly.

For full details and your free copy of "Budgeting for Profit", telephone, write, or visit us in person. No obligation, of course.
