## PCA Farm and Ranch Loans Cost Less

When farmers and ranchers borrow money to finance capital improvements or provide funds for operating expenses, costs are lowest through PCA — Production Credit Association — sometimes only half of some other loans.

You pay interest only on the money you actually use, and only for the time you use it. Payments are applied first to principal, reducing the balance subject to interest.

Loans for operating funds are budgeted for all year, including planting, growing and harvesting.

Drop by our office and let us show you how our loan plans serve you best and cost you less. Also get your copy of "Budgeting for Profit", without cost or obligation.
