*Keeping costs
down on
the farm*

More than thirty years ago, Pacific Supply Cooperative was founded . . . out of necessity. Stated purpose was "to provide unity of effort in buying."

In those depression days, Northwest farmers were "manufacturers" of food and fibre but, as individuals, they lacked the buying muscle any industrial manufacturer had to have to survive.

Pacific Supply gives over 100,000 Northwest growers the combined purchasing power needed to keep the cost of production supplies down on the farm, at levels reasonable enough to make a profit and stay in business.

The seed of Pacific's original objective has grown in purpose, cultivated and fertilized by these policies — all aimed at serving the expanding needs of Northwest farmers:

WITH HONEST PRICING insuring the same fair price to any buyer of the same quantity and service, retaining a reasonable profit for Pacific cooperatives to expand future services to farmers.

WITH HIGHEST LEVEL OF SERVICE, both routine and emergency, to give Northwest farmers the kind of technical assistance and grow-how only a farmer-dedicated business like Pacific can provide.

WITH TIMELY AVAILABILITY of refined fuels, chemicals and fertilizer products delivered to Northwest farmers when and where they need them.

WITH ASSURED QUALITY of every product that bears the Circle P emblem, the sure sign for farmers.

WITH AGRICULTURAL RESEARCH to help Northwest farmers meet tomorrow's demands for technological advances in agricultural production.

WITH CREDIT AND MANAGEMENT SERVICE for farmers and associations to help Northwest growers succeed as agri-businessmen.

As we better serve the needs of Northwest agriculture, we better serve all mankind.

"We believe that the agricultural industry, which can be victimized by nature, should not be plagued by problems over which man has a degree of control — namely service, price and availability of necessary supplies."
