

## Why fly over the scenery?

## Travel right through it!

Sure you're in a hurry. But once in a while, on that business trip, why not give yourself a break? Why not take the train?

You remember trains. They take you there on the ground — down where the scenery is. You go right through it... slow enough so you can see it, but fast enough so you arrive wherever you're going almost before you want to.

And up in a Union Pacific Domeliner — ah what a view! That's because the Dome cars were built just for that purpose — to see the scenery. May we remind you of some other pleasures of train travel? How about the convenience of a private room... a dining car with a variety of freshly-prepared foods... a lounge car for relaxing... and family fares to save you money.

Yes, train travel is great — a vacation all the way! Let us tell you more. Call us or your favorite travel agent.

## Traffic Deaths Show Increase

Forty-two persons lost their lives on Oregon highways during March, bringing this year's total to 145 dead, according to the Department of Motor Vehicles. Through March, 35 more persons had died in traffic this year than in the same period in 1966.

Almost 40 per cent of March's fatalities were Portland residents, although most accidents occurred outside of the city limits. More fatal accidents occurred in Clackamas county than any other Oregon county during the month. Ten persons were killed in that county.

Traffic fatalities during the month followed the normal occurrence trend in that over one-third were killed on weekends. Over 39 per cent of the deaths occurred in accidents killing more than one person.
