With our first game three weeks away we will have a lot to do in a hurry. This year finds six returning seniors that saw action with four of them starting some time during last season. The returning seniors are Dan Wilson, 5' 10" guard, Gary Ross, 5' 10" guard, Scott Jefferson, 6' 1" forward; Colin Chester, 6' 1" center; Reid Saito, 6' 1" forward; and Bill Kouns, 5' 8" guard.

**Nyssa Runner Attends State**

NHS runner Robert Edmondson placed 41 out of 162 participants in the 1967 State Cross-country Meet held in Salem, Friday, November 3. Accompanying Edmondson was Coach Ralph Aldrich.

Robert, who is a freshman this year, completed the 2-1/2 mile course in a time of 14 minutes, 15-6/10 seconds. "Robert did an outstanding job," commented Coach Aldrich.

A week before the state meet, Robert competed in the district meet held in Pendleton. His second place finish in this meet qualified him for the state meet.

This is the second consecutive year that Nyssa has had a runner qualify for state competition. Since he is only a Freshman this year, Robert will have more opportunities to compete in state events. - NHS Bulldog.

Much of the work was done between 1880 and 1890. Mrs. Garvin's mother, Mrs. Marcus Whitman (her husband was a relative and namesake of the Marcus Whitman of Walla Walla, Wash.) and the Misses Bernice McCoy and Ella Olesen were the other two women honored. **When cold winds blow your warmest friend is natural gas**

**THE MORE YOU USE, THE MORE YOU SAVE**

The best way to keep your total utility bills down is through multiple use of natural gas. You can save even more when you heat with gas, heat water with gas and cook with gas. If you are using gas for one of these services, consider the addition of the other two. Conversions are inexpensive.

There's far more to proper heating than mere consideration of the temperature achieved. Room conditioning through correct heat balance is the important thing. It's comforting to know, as a natural gas user, that when cold weather strikes you will not only have an abundance of additional heat (subject to immediate fingertip control) but you will also have heat distribution . . . for the utmost in healthful comfort. Vented, fully fresh-air-circulated natural gas heat dispels stale, used-up air and brings in a fresh supply to be conditioned quickly. Hour after hour you have adequate warmth throughout each room, and at unusually moderate cost.
