

## NEW C OF I DORMITORY DEDICATION SET SUNDAY

The dedication ceremony for Hayman Hall at the College of Idaho, Sunday, May 5, will begin at 2 p.m. on the steps of the dormitory.

The public is welcome to attend the event which is one of many activities on campus during the Parents Weekend and Open House, May 4-5, according to Prof. LaMar Bollinger, chairman of the committee planning the hall dedication.

The building's name honors the late Dr. Herbert H. Hayman who served the C of I for 23 years as a faculty member and in other capacities. The \$843,500 dormitory, at the corner of 20th Avenue and Cleveland Boulevard, has been occupied by students since the fall of 1965.

During the ceremony, a picture of Hayman and a book which he wrote, "That Man Boone," concerning the college's founder, Dr. William Judson Boone, will be presented to the dormitory.

Dedicator remarks will be made by R. H. "Bill" Young, a Nampa attorney and a 1938 C of I graduate. Young has served on the C of I Alumni Executive Committee and has assisted with numerous fund drives for the college. He has been a speaker at a number of C of I Orientation in Politics conferences, bringing to those his background as president pro tem of the Idaho State Senate, four terms in the Idaho House of Representatives and six terms in the state senate. He also has served in numerous civic and service capacities in Nampa and in Parma where he formerly made his home.

Robert L. Alexanderson of Caldwell, chairman of the C of I Board of Trustees, will make the presentation of Hayman's picture to Dennis Whitaker of San Mateo, Calif., president of San Mateo Hall. John Hayman of Caldwell, a son of H. H. Hayman, will present the book, "That Man Boone," to Marva Jo Broyles of Shoshone, vice president of the hall.

Dr. Douglas D. Tiffany, college chaplain, will open the ceremony with the invocation, and the college president, Warren B. Knox, will give the welcome.

oval-shaped meat, weighing from two to four pounds, usually comes packaged in transparent wrapping. Cover with water and simmer over low heat about 45 minutes per pound or bake in a 325 degree oven for two to three hours. Slice and serve while hot.

The next day you might have cold sliced meat accompanied by creamed potatoes to which chopped green onions have been added, buttered beets, tossed salad, sherbert and cookies.

Any leftover pieces may be ground and mixed with mayonnaise and mustard for sandwiches, or added to breakfast scrambled eggs.

DETERGENTS ARE STILL CONFUSING to many people. Since July 1965 all leading brands have been biodegradable. This means that they decompose during sewage treatment as the result of bacteriological action.

The foam from the type of detergents produced earlier caused problems, but this is not the case any longer.

Remember, all detergents and cleaning products should be stored where children can't reach them.

NEW HOMEMAKERS, if you have a yen for good ham-like flavor, smoked pork shoulder roll is a good choice because there are many ways to use it for several meals.

Marie Tribble, Oregon State University Extension nutritionist points out that this handy,

STRETCH YOUR FOOD DOLLAR with thrifty cuts of meat. Marie Tribble, Oregon State Extension nutritionist, explains that you don't have to sacrifice on glamour because cheaper cuts are the basis of such treats as beef stroganoff, sauerbraten and exotic curries.

**RODGER GARNER**

Word was recently received from the University of Oregon in Eugene that Rodger Garner, a senior at Nyssa high school, is recipient of a Joseph Kinsman Starr scholarship award in the amount of \$200 each for the fall, winter and spring terms, with educational opportunity grants of \$167, \$167 and \$166 for each term.

He will attend U of O to continue studying toward his vocational aspirations. Garner has indicated that he is interested in oceanography as a vocational possibility.

In addition to his scholarly endeavors, Rodger has been actively involved in both organizations in and out of school. He has been quite active in the high school band, in addition to being a member of the Lettermen's and Science clubs.

He has held the office of secretary-treasurer of the Science club and reporter for the Thespians organization. He also served as Bulldog photographer.

Much of his out-of-school activity concerns church-related accomplishments. He has been both president and vice president of LDS Seminary, YMMIA secretary, president and secretary of two priesthood classes.

He has also held offices in Boy Scouts and his 4-H club. In the way of special honors, Rodger has obtained the rank of Eagle Scout. He was selected as first alternate to go to the World Scout Jamboree last year. The NHS senior has claimed five individual LDS awards and was selected to attend the 4-H summer school in 1966. Rodger is the son of Mr. and Mrs. Dee Jesse Garner of rural Nyssa.

operating a power-driven saw, working from a ladder or scaffold at a height of over 20 feet, and working in a pen, yard or stall containing a dairy bull, boar, or stud horse.

The ban also includes operating, feeding or unclogging power-driven balers, grinders, choppers, silo fillers, roughage blowers, auger conveyers and combines.

Exceptions to the new regulations will include children employed by their parents and student-learners meeting requirements spelled out by the Department of Labor.

The new regulations are part of the Child Labor Regulations prohibiting the employment of children in hazardous occupations. These are interim regulations and will expire Jan. 1, 1970, unless amended earlier.

The full text of the regulations can be found in the Federal Register, Vol. 32, No. 216, Nov. 7, 1967, Ross said. Copies of the register and further information can be obtained at county extension offices and the Department of Employment.

## PORTLAND DISTRICT U.S.A. ENGINEERS 97 YEARS OLD TODAY

The Portland U. S. Army Engineer District will celebrate its 97th birthday today for on that date in 1871 Major Henry M. Robert established the Portland office at No. 10 Front Street on the west bank of the Willamette River in northwest Portland.

Prior to 1871 all of the Corps of Engineers' work on the West Coast was handled through the San Francisco Engineer Office. Major Robert, who is the Portland office's first District Engineer, is best known as the author of Robert's Rules of Order, one of the foremost books on parliamentary procedures. He later rose to the rank of brigadier general and in 1901 became Chief of Army Engineers.

Major accomplishments during the District's 97 years of existence include construction of the Oregon coastal jetties, construction of Bonneville and The Dalles on the Columbia River and the string of flood control reservoirs in the Willamette Valley, and the current Columbia River 40-foot navigation channel from Portland and Vancouver to the sea.

**GARY ROSS**

Nyssa high school officials recently received word from T. C. Shoberg, director of financial aids at Willamette university, that Senior Gary Ross has been chosen recipient of a financial grant. In addition, he was informed that he is eligible to apply for other forms of financial aid.

In making the award, Shoberg congratulated Ross on his excellent record of high school achievements.
