

Now-Take Advantage of New

HAIL-WIND INSURANCE

Special Coverage for
SWEET CORN

This new policy, underwritten by St. Paul Mercury Insurance Company, offers you protection at a low cost made possible by spreading risk over a wide geographical area.

A standard hail policy with wind endorsement, the cost of this plan is based on standard hail rates plus 50¢ per \$100 of coverage for wind insurance. For example, 100 acres in Payette County valued at \$150 an acre would pay a hail rate of \$1.30 per \$100 and 50¢ per \$100 for wind. The total premium would be \$270.

Since this is participating coverage, a dividend may be paid, subject to earned surplus.
