The typical Oregon farmer uses 55,000 kilowatt hours of electricity a year, says the Agri-Business Council. This is five times as much power as the average urban homeowner uses. What we need is not a more elastic currency, but a more adhesive one.

GRANGE ACTIVITIES

Oregon Trail Grangers met in regular session August 1, with Master Don Somers presiding. During the business meeting plans were discussed for the Malheur County Fair, and members of the grange will assist with the food concession stand. It was decided to postpone the next meeting scheduled for August 15. Ira Price announced the next Pomona meeting will be at 8 P.M., August 24 at Boulevard grange hall. State Deputy Robert Coble was escorted to the Master's station. He explained the \$1 increase in grange dues. A highlight of the evening came during the refreshment hour when Coble related his stagecoach driving experiences. It was during the winter of 1919 when the weather dropped to below zero for a 30-day period. He drove the stagecoach on his mail route from Richland, Ore., to Robinette, a distance of 10 miles. During the time a road was under construction, he recalled crossing the river 26 times while on his route. He stated that by 1924 the automobile put an end to the livery stable and stagecoach, and they soon became a colorful part of Oregon history. Mr. and Mrs. Ralph Thomas, Mr. and Mrs. Elvin Ballou served homemade ice cream and cake to the 21 members and four guests present at the recent meeting.
