Football

**Kavemen Down
Bulldogs, 27-0**

BY JIM BECK
Member of the NHS Bulldog Staff

Opening their 1968 football season, the Kuna Kavemen overpowered the Nyssa Bulldogs on the evening of Sept. 6 on the NHS gridiron, with a 27-0 final score.

The visiting Kavemen began their scoring in the first six minutes of the game, with a steady drive into the end zone.

The Nyssa lads started a drive on their 20-yard line, which ended in a fumble on Kuna's 35-yard stripe.

The contest continued scoreless until the third period when Kaveman Rob Nelson broke through for a 21-yard touchdown making a 13-0 score at the end of that quarter.

During the fourth stanza, the Bulldogs were unable to withstand an inspired Kuna squad, thus yielding two more touchdowns to the visiting Idahoans.

The NHS Bulldogs will travel to Union Friday, Sept. 13 and will meet the boys in their 'Union Suits' in a 2 o'clock afternoon conflict. This will be the team's first game of the 1968 season.

Adrian Game Friday

The Adrian Antelopes will begin their football season Friday, Sept. 13 when they host the grid lads from Marsing.

**Judo Registration
Scheduled Sept. 17**

The second night of registration for the 1968-69 Judo season will be held at the Ore-Ida Judo hall, located on the corner of W. Idaho avenue and N. W. 8th street in Ontario at 7:30 p. m. Tuesday, Sept. 17.

Any interested valley resident is encouraged to attend this session and obtain information. While the beginning age for boys is eight years, or older, an adult class for men and women of all ages will be arranged if enough interest is shown.

Blackbelt instructors will be on hand to answer any questions relative to Judo instruction and training. Parents and students are encouraged to attend the registration session.

**Children Need
Eyes Checked**

Sight is a child's most precious sense. From birth on, he gradually comes to depend more and more on his vision for learning and guidance. In fact, about 80 percent of all he learns depends on his vision skill.

Because vision is such an essential factor in child development, visual ability can affect a child's school achievement, his social adjustment, and some of his physical capabilities such as hand-eye coordination. If his visual capacity is limited, his interest in activities and endeavors it affects is likely to be limited. Thus, a child's personality can be, in large part, molded by his ability to cope with visual tasks.

The great tragedy of all this is that most children with visual handicaps do not know that they are seeing improperly - they assume that the way they see is the way everyone sees. Thus, the responsibility for a child's visual welfare, like all other responsibilities for him, lies with his parents.

Most vision problems can be corrected if they are detected early. Because of this, and because adequate vision is so important to a child, the Oregon Optometric Association and the local optometric society urge annual professional vision examinations for all school children.

A fine cage won't feed the bird.

With modern medicine doing so well at increasing our life expectancy, we'd better be careful about adding to the national debt. We might have to pay it ourselves instead of passing it on.
