NUMBER XXXIX

Disadvantaged Children To Have New Classrooms On Nyssa Schoolground

Nyssa will have two new classrooms for pre-school children of the culturally disadvantaged. The frame, pre-fab buildings will be located just west and north of the Primary Building for which foundation has already been placed. The buildings are being built by Northland Camps Inc., of Nampa, Idaho. The classrooms are 24' X 46' each and will have self-contained toilet facilities and it's own individual heating and cooling units.

The total allocation of these funds is \$36,261 and this will provide the building placed on the site, with the necessary equipment. Foundation, plumbing and wiring hook up is being done by W. D. Holcomb, Eder Plumbing and Morrison Electric.

The funds for the building and the equipment to furnish them will be provided under the Elementary - Secondary Education Act under the State Department of Education. The ownership of the buildings will be the State Department and they are the re-locateable type so they could be used in another area or another site if the need or their existence here become unnecessary.

This will provide housing for a program of 80 four and five year olds. There will be a class of 40-four year olds and 40five year olds, for a total of 80 pupils. The five year old group is now in session. School is being held at Arcadia. The four year old's program will begin as soon as the building is ready or about the first of

TICKETS ON SALE

Tickets are on sale now at Keith O'Brien and Estano's in Ontario: G & B Realty, Vale; Peterson Furniture, Nyssa; Greif's music, Payette; and Alexanders in Weiser. Pobanz emphasizes that this presentation is a tremendous undertaking financially for a college

TAXING DISTRICT BUDGETS OF MALHEUR CO. SHOW \$655,999 INCREASE IN '68

Budgets for 1968 submitted to Malheur County Assessor John Koopman by the 39 taxing units within the county show a whopping increase of \$655,000 over the 1967 figures. This in spite of the Constitutional Amendment #7 to limit taxes on property to 1 1/2 percent of actual cash value to be voted upon in the November 5 general election.

It is surmised that most of the budgets were approved before it was realized that the amendment would actually appear on

Of the 39 units submitting budgets 34 asked for increases, one was unchanged and four decreased the amount necessary for the present year.

NHS Students Named Merit Scholarship Semifinalists

ANGELA LABBY

Nyssa High School Principal Gene Chester announces that George F. Heider and Angela J. Labby have been named semifinalists in the 1968-69 National Merit Scholarship Program.

The 15,000 appointed semifinalists are among the nation's most intellectually able high school seniors and will compete for some three-thousand merit scholarships to be awarded in 1969.

The students semifinalists were the highest scorers in their states on the National Merit Scholarship Qualifying Test, given nationwide last February in 17,500 schools. They constitute less than one per cent of the graduating secondary school seniors in the United States.

The semifinalists show high promise for leadership in their adult careers, according to John M. Stalnaker, president of the National Merit Scholarship Corporation. "They have already demonstrated both high intellectual capacity and a readiness to develop their abilities," he said.

"These students deserve credit and honor. They bring honor to their families, who also deserve much credit, as do their teachers and their communities. Their future success, however, will depend, inbecome productive at the high

intellectual levels of which they are capable." Semifinalists must advance to

a finalist standing to be considered for Merit Scholarships. since all winners will be selected from the finalist group. Semifinalists become finalists by receiving endorsement of their schools, submitting scores from a second examination, and providing information about their achievements and interests.

Every semifinalist who becomes a finalist will be considered for one of one-thousand National Merit \$1000 scholarships, allocated by state. Many will also be considered for four-year Merit Scholarships provided by some 400 corporations, foundations, colleges, unions, trusts, professional associations, other organiza-

tions and individuals. Winners of four-year merit scholarships may receive up to \$1,500 a year for four college years, depending on their individual needs. Winners of the \$1,000 National merit scholarships will receive one-time stipends in that amount upon enrollment in college.

High school grades, accomplishments, leadership qualities, extracurricular activities and school citizenship of the finalists are evaluated. creasingly, upon their ability to along with test scores in selecting Merit Scholarship win-
