"THIS IS A SONG" AROUSES INTEREST

"This is a Song", lifted from the U. S. Press Association and carried as an editorial in the September 19 edition of the Journal has aroused more interest than anything on this page in recent times.

It gave the words for the song that appeared in "New Hymns For A New Day", published by the Youth Department of the World Council of Churches and the World Council of Christian Education. Basically, it blames God for the sins of man since the beginning - because He was the Creator.

The publicity for the editorial was brought about through the Bob Salter discussion program held weekly by Bob Salter on station KATN in Boise.

The Journal is carrying a few of the many letters written asking for copies of the editorial. In addition there have been quite a number of local request for additional copies to be mailed out.

As long as our supply of this issue holds the Journal will continue to supply copies for those desiring them upon payment of a small fee to cover cost of mailing.

Packwood Tells Crime Position

U. S. Senate Candidate Bob Packwood presented the first in a series of position statements on crime, which he indicated will be released in the next several weeks. The first, calling for an upgrading of our police departments, was presented at the Professional Engineers at the Hoyt Hotel in Portland, Tuesday, Sept. 10, at noon.

Packwood noted, "Last week, the FBI reported that serious crimes have skyrocketed by 89 percent since 1960 - compared to a six percent population increase. This means that in the past minute, six serious crimes were committed throughout the United States."

"But while crime is on the rise, the FBI reports that police solutions of serious crimes have decreased eight percent.

Packwood said, "If this nation intends to control crime, it is imperative that local police be given the manpower to become fully modern agencies. He also indicated that "Police departments should recruit far more actively than they now do with special attention to college campuses and innercity neighborhoods.

He said that "the disgracefully low salaries of those who now bear the danger and the burden of lawenforcement must be raised to assure adequate compensation.

Packwood called for a revision of the promotion requirements for policemen. "Promotion eligibility requirements should stress ability above seniority," Packwood said.

He also is in favor of the federal government greatly expanding its programs for police training. "Federal grants should be made available to states for establishing and maintaining police academies to train recruits," Packwood said. "The National Defense Education Act should be amended to include special grants to universities and institutions to provide police training courses and specialized instruction related to crime prevention and control.

Packwood said, "I urge that entering officers serve probationary periods of at least one year. I consider it vital that every general enforcement police officer should have at least one week of intensive in-service training every year.

Wise men are instructed by reason; men of less understanding by experience; the most unknowing learn by necessity.

IT SHOULDN'T BE A SOLO ACT!

GO AND DO LIKEWISE

Our paychecks are now reflecting the 10 per cent surcharge in income taxes voted by Congress. Although this tax increase is due to expire next year on June 30, some people are already talking about extending it.

In enacting the tax increase, Congress also required a \$6 billion drop in Federal expenditures and a \$10 billion cut in spending authority for fiscal 1969.

Both the tax increase and the reduction in Federal spending are now the law of the land. The tax increase is a fact, but expenditure control is still to be realized.

As taxpayers, we are not in a position to postpone or to delay payments of our share of the burden, but there are many delays in the spending cuts. When the Congress recessed for the national conventions... here is what had happened: Congress had cut \$3 billion from the Administration's request for \$186.1 billion in fiscal 1969. Because of anticipated increases of \$700 million in price support payments and \$300 million in federal expenditures for welfare, the Administration will have to cut \$4 billion from its other spending plans.

We taxpayers had no choice but to tighten our economic belts. We expect the Federal government to do likewise.

ST. PAUL'S EPISCOPAL CHURCH

The women of St. Paul's Episcopal guild will meet at 8 p.m., Wednesday, Oct. 9 in the home of Mrs. Jessie Morgan.

"Additionally, every officer should be given incentives to continue his general education or acquire special skills outside his department. The Omnibus Crime Control and Safe Streets Acts of 1968 should be amended to include grants and scholarships to qualified officers for this purpose.
