Remember the first time you ever went into a bank?

You stood outside with your money. Wondering if you'd ever get up enough nerve to go in.

Some people still feel that way.

We don't blame them.

For a long time, we've had the same feeling. That people were right in thinking of most banks as being rather stuffy. Cold. And a little overwhelming.

Is this the way a bank should be?

We don't think so.

We think it's time someone did something about the little things that bug people about banks.

So we are.

Like calling you by name, so you won't feel like a number.

And trying to make lines move faster so you're not stuck behind someone with a lot of transactions.

There's a banking program for young people. And a fix-up program for your house.

We even have new ways to help you save money.

And much more you'll be reading about in the next few months that will make a big difference in the way you bank.

You see, we're the largest bank in Oregon.

And we figure you made us this way.

So the least we can do is make your banking a little easier. A little nicer. And a lot less banky.

We'd like to get to know you.
