Adrian Voters Reject Budget In Second Try

Adrian school electors defeated the proposed budget for the second time in Saturday's voting. The county was 141 NO to 102 YES.

The Budget submitted the second time was the same as the first one voted on May 5. It went down to defeat 113 to 76. It was unchanged as the board felt the vote was too small to represent the feelings of the patrons.

The second vote drew 54 more out than the first one but those opposed were almost the same percentage as in the first election.

A public hearing was set for last night (Wednesday) to discuss items in the budget to enable the board to start making changes. The next board meeting is set for Tuesday night of next week.

OREGON VOTERS REJECT 3% SALES TAX MEASURE BY ENORMOUS MAJORITY

FAILS IN ALL COUNTIES

The three percent sales tax proposal went down to a smashing defeat in Tuesday's election. Oregon voters ran up 502,000 No tallies to 65,000 Yes for a seven and one-half to one beating. Approximately 50 percent of eligible voters turned out, it was defeated in all of the 36 counties, and there is some question if the issue carried in any precinct.

In Malheur county it failed about 5 to 1 (4300 to 874) with about one half the eligible voters going to the polls.

GOVERNORS STATEMENT

Governor Tom McCall, in a Wednesday morning news conference, said he was disappointed in the failure to pass. He complimented the people in telling the legislators in such a decisive manner that "They were all wet".

He said he had no proposal at this time and would not call a special session of the legislature until a majority of the house and senate members had agreed on a new tax plan, in advance.

STRAUB STATEMENT

State Treasurer Robert W. Straub, Democrat, said he was well pleased in the vote and that he could not understand how the elected legislature could be so far out of touch with the desires of the voters.

The measure was openly supported by organized labor, the Grange, and small businessmen. Also by families in the lower economic levels.

It had the endorsement of the Oregon Farm Bureau, some of the larger corporations, and large individual property owners.

Charles Quinowski, Guidance Counselor, Treasure Valley Community College, has indicated there is a great need for summer job opportunities for Treasure Valley students. There is a pressing employment need particularly for girls. Since many students depend on summer jobs for financing their education, it is hoped that area businessmen will respond to this need.

Merchants or other local citizens who can assist a student with his employment problems, are asked to call Quinowski at the college.

State Traffic Takes 52 Lives During May

Oregon traffic accidents killed 52 people during May, according to preliminary figures released by the Department of Motor Vehicles. Last year, 50 people died in May crashes.

The department reported that traffic deaths for the first five months of 1969 totaled 241 -- the same number as had been killed at that time last year.

Two crashes during the month, both in northwestern Oregon, each claimed four lives. One other crash killed two people; the other fatalities occurred singly.

Although reports still are incomplete, preliminary analysis indicates non-collision, motor vehicle-pedestrian and head-on collisions were responsible for the greatest number of fatal accidents.
