3. Would you please present your proof that the so-called "right-wingers" and the Mormon Church are trying to disrupt the college?

Letters to the Editor

June 14, 1969
Dear Editor:
The Senior Citizen's conference on the aging, convened in the 4-H building at the State fairgrounds in Salem May 23 and 24. W.D. (Brownie) Brown was the attending delegate representing the Nyssa Senior Citizens.
The two-day program was both educational and recreational, consisting of tours of the Capitol building and all points of interest in and about the city. Cars were provided for all transportation, with the drivers acting as hosts. Private homes were given the visiting delegates and all hotels wore a welcome atmosphere. The beautiful Marion hotel was headquarters and the entire city actuated warmth and friendliness.
Dr. Ken Miller, Mayor of Salem, opened the Friday session, followed by speakers from Washington, D. C. and San Francisco. Clay Myers, secretary of the state of Oregon, gave an excellent talk. There were work shops on green thumb projects, food and nutrition, health and education, crafts, the generation gap, and a banquet in the evening, followed with dancing.
Saturday was filled with business and reports from the various Senior Citizen organi-

zations. These reports could give a new understanding of the scope involved by these groups in their communities. There were citations of participation much needed in Nyssa. All definitely showing our elderly are useful in community service. Dr. John E. Long was elected at the conference as delegate in 1970, representing the Nyssa unit. With similar town support, as was shown in these reports, Nyssa Senior Citizens are envisioning a future headquarters of their own, where they may carry on these same services. — The Nyssa Senior Citizens.

Editor:
There are still a few questions to be asked which President Skinner and the TVCC board have not answered. Also there are many demands that have been made by the public concerning the college conditions. We wish to set forth some of these questions and demands:
1. Why is Mr. Fowler still both the accountant and auditor for TVCC? Why wasn't a different auditor hired to make the yet unfinished 1967-68 audit when Mr. Fowler was temporarily indisposed?

Gentlemen:
Sincere thanks for your wonderful support for our recent, successful educational and fund raising April crusade. Your free public service enables us to reach many more Oregonians with life saving information than we could ever reach on our own. Our three-phase program of public and professional education, research and patient and community service is making headway. In the early 1930's fewer than one in five was being saved - that is, alive five years after first being treated. Since 1956 the ratio has decreased to one in three. This could be one in two if everyone went to his doctor in time. That is why it is so vital for all persons to be alert to cancer's seven warning signals and have an annual checkup. With your continued support we will reach that one in two. The other victim still needs
