CITY LIBRARIAN LISTS ACTIVITIES

As the hustle and bustle of summer enters its final period, many people are escaping for a cool, quiet hour of reading and relaxation at the Nyssa public library, according to City Librarian Mrs. Norma S. Urry.

Library sponsored activities have had a very successful season. The summer reading program concludes August 30 and Mrs. Urry reports that response has been tremendous with nearly 500 children participating.

Also, a great deal of interest has been shown in art exhibits. Each month, paintings are displayed by local artists. The works of Steven Jensen is being featured during August.

"Storytime" continues to attract youngsters from 11 to 11:45 each Thursday morning. Mrs. Urry suggests that mothers leave their children while running errands, shopping or just browsing in the library proper.

The librarian adds, "We hope you'll stop in to view the paintings and enjoy the wide selection of books." Titles of some of the new volumes are listed in this issue of the Journal, or will be published in the near future.

Complaining Lately?

To gain a proper perspective on fairness to employees, perhaps this company regulation of one Australian firm, posted in the middle of the last century, will help. It was first published in a Sydney, Australia newspaper in 1852.

1. On the recommendation of the Governor of this Colony, this firm has reduced the hours of work, and the clerical staff will now only have to be present between the hours of 7:00 a.m. and 6:00 p.m. on week days.
2. Clothing must be of a sober nature. The clerical staff will not disport themselves in raiment of bright colors, nor will they wear hose, unless in good repair.
3. Overshoes and top-coats may not be worn in the office, but neck scarves and headwear may be worn in inclement weather.
4. A stove is provided for the benefit of the clerical staff. Coal and wood must be kept in the locker. It is recommended that each member of the clerical staff bring 4 lbs. of coal, each day, during the cold weather.
5. No member of the clerical staff may leave the room without permission from Mr. Rogers. The calls of nature are permitted, and the clerical staff may use the garden below the second gate. The area must be kept in good order.
6. No talking is allowed during business hours.
7. The craving of tobacco, wines, or spirits is a human weakness, and as such, is forbidden to all members of the clerical staff.
8. Now that the hours of business have been drastically reduced, the partaking of food is allowed between 11:30 a.m. and noon, but work will not, on any account, cease.
9. Members of the clerical staff will provide their own pens. A new sharpener is available on application to Mr. Rogers.
10. Mr. Rogers will nominate a senior clerk to be responsible for the cleanliness of the main office and the private office, and all boys and juniors will report to him 40 minutes before prayers, and will remain after closing hours for similar work. Brushes, brooms, scrubbers, and soap are provided by the owners.

The owners hereby recognize the generosity of the new labour laws, but will expect a great rise in output to compensate for these near Utopian conditions.

At that time, officers accused both men of cultivating marijuana on property rented by Brown south of Adrian. Gibson was released to military authorities on the AWOL charge, and Brown was convicted in Malheur Circuit Court on the unlawful narcotics charge.
