

May shows key features of new "share-the-cost" plan Idaho Power has proposed for cooperative financing - construction by utility and Idaho Water Resource Board to reclaim Mountain Home desert land and develop Snake River's Swan Fall-Guffey reach for more electricity. Under joint-venture plan, conceived by Idaho Power vice-president R. A. Hogg, Boise River water diverted by Long Tom facilities would be delivered by closed-pipe system under natural pressure to sprinklers on irrigation project. Closed-pipe system and sprinklers, requiring half as much water as open canals, would permit development of twice as much desert land at less than half the per-acre cost of Southwest Idaho Water De-

velopment Project's Mountain Home division proposed by U. S. Bureau of Reclamation. Pumping plant in Swan Falls-Guffey reach would lift Snake River water into Lake Lowell to replace water diverted from Boise River. Swan Falls and Guffey dams would be built and paid for by Idaho Power, would be operated by utility to provide it with optimum peaking power required in late 1970's to fill growing customer needs. Idaho Power's payments for falling water from dams, including its equivalent interest and taxes on those facilities, would enable the Idaho Water Resource Board to pay nearly half the cost of dams and "high efficiency" irrigation facilities the board would finance with revenue bonds.

NU ACRES HAPPENINGS

NU ACRES - Members of Nu Acres grange met Sept. 26 at the hall for their regular meeting and election of officers. Gene Honey was re-elected Master for the following year. After the business meeting, they went to the Cecil Evans home where they made cider and had refreshments.

Installation of officers for the granges of Washington and Payette Pomona will be held Oct. 3 at the Haas grange hall in Weiser.

Mrs. Effie Nielsen received word that her brother-in-law, Elmer Brown of Shelby, Iowa succumbed recently to a heart attack. Mrs. Nielsen spent Sept. 28 at the home of her grandson, Clifford Nielsen, Jr. in Ontario.

Mrs. Ralph Baxter left Sept. 29 to attend the LDS conference in Salt Lake City. Her sister, Mrs. Thelma Groves of Kern, Utah, is with the "Singing Mothers" who are to perform there.

Delma Smith, daughter of Mr. and Mrs. Delmer Smith, has been staying with Mrs. George Wilson while her mother has been helping McKague's close out their store in Nyssa.

Mr. and Mrs. Art Jones visited Sept. 28 with Mr. and Mrs. George Wilson.

Mr. and Mrs. Bill Quirk of San Francisco, visited recently with Mr. and Mrs. George Pulsipher.

Mr. and Mrs. Pulsipher

visited recently in Boise with Mr. and Mrs. Gene Haggerty. George Pulsipher is reported to be progressing from his recent eye operation, but is confined to his home most of the time.

325 Veterans Draw Educational Benefits

State educational aid benefits were paid to 325 veterans during fiscal 1968-69 in the amount of \$14,460, the Department of Veterans' Affairs reported today. This was a 36-percent decrease below 1967-68.

Since the program started in 1945, payments have gone to 14,502 veterans in the amount of \$4,202,722, for an average payment per veteran of \$289.

H. C. Saalfeld, veterans' affairs director, said veterans planning to use the benefits this fall should immediately contact their school registrar, a county service officer or the Department of Veterans' Affairs.

Entitled are Korean war veterans and recipients of the Armed Forces Expeditionary Medal or the Vietnam Service Medal. There is no deadline for applying for these groups. World War II veterans may still be entitled, but only if they commenced drawing benefits before June 30, 1959.

To qualify, a veteran must have been an Oregon resident for one year prior to his military service, he must have served 90 days or more during wartime or after July 1, 1958, and he must be an Oregon resident when he applies. He can't draw State benefits at the same time he is receiving federal educational benefits based on military service.

The benefit pays \$50 for each month of full-time undergraduate college studies, and up to \$35 a month for other studies, based on one month's entitlement for each month of military service, up to 36-months.

MAKES DRIVES TO CLEAN PACIFIC NORTHWEST LAND

More than 5,000 Pacific Northwest 4-Wheel-Drive Association members in Washington and Oregon will go on public and private lands the weekend of September 20-21 to pick up litter, it was announced by Don Armstrong, Yakima, Association president.

The massive clean-up program will be spearheaded by 48 member and 18 candidate clubs in the two states. The Association is the largest of its kind in the nation.

Efforts of the 4-Wheelers will be supported by CLEAN and Beautiful, the two-state litter prevention and beautification agency for Washington and Oregon. CLEAN, as a business and industry sponsored public service organization, will work with local club presidents and provide anti-litter action kits for the project.

Special emphasis will be placed on picking up litter from federal and state forest lands. The group plans on surpassing its 1968 record pick up of 2 1/2 tons of litter, with 1,700 miles of travel recorded.

Governor Tom McCall of Oregon and Governor Dan Evans of Washington have declared the week of Sept. 14-20 as 4-Wheel-Drive Clean Up Week.

Clean up projects will be carried out by local clubs in the two state area. The Longview-Vancouver clubs will pick up litter from privately owned and state lands. The Portland and Salem clubs will pick up litter on federal lands. The Central Oregon clubs will work on state, private and federal lands. The Puget Sound clubs will carry out their projects on federal lands in the Cascade range.

Armstrong said, "Littering of our private and public lands is deplorable. It is the aim of the Pacific Northwest 4-Wheel-Drive Association to do something about it. Our association carries on a year-long program of anti-litter activities. Once a year we combine our forces in the two states to gather, collect and dispose of all litter that we can. In making use of the forests as a recreational area we are constantly aware of our obligation to keep it litter free." Armstrong urged other groups and

EVENTS AROUND ADRIAN

BY PAULINE MACKEY PHONE 372-2724

Mmes. Bill Willis, George DeHaven and W.E. Ashcraft attended the Happy Dozen Card club meeting Sept. 26 at the home of Mrs. Dyre Roberts.

Mrs. George DeHaven accompanied Mr. and Mrs. Omar Hite to Oakridge Sept. 19, where she visited her son Don DeHaven and family. On Sunday she went to visit Mr. and Mrs. Larry DeHaven and family near Klamath Falls. They brought her home Sept. 23.

Mr. and Mrs. Dan Skerjanc and sons of Jamison were Sept. 21 evening visitors at the home of her parents Mr. and Mrs. George DeHaven.

Mr. and Mrs. L.K. Bullock of Vale visited Sept. 26 at the home of Mr. and Mrs. George Cartwright.

Messrs. and Mmes. George Cartwright, Glen Brown, G.E. Mackey and Gene attended a baked salmon potluck dinner Sept. 27 at the home of Mr. and Mrs. Ray Bacon of Nyssa. Ray had caught the salmon in Alaska last spring.

Christine Orris spent a recent weekend at the home of Mr. and Mrs. Oliver Freil. Sept. 29 Christine and Sharon

Freil moved to Ontario, where they are attending TVCC.

Mr. and Mrs. Junior Matthews took their daughter Jean to an eye specialist in Portland Sept. 23 and returned home Sept. 26.

Mr. and Mrs. Carol Bench of Heppner were overnight guests of her cousin Mr. and Mrs. George Cartwright. They also visited her father, Clyde Cartwright.

Mr. and Mrs. E.R. Magden of Mt. Home visited Sept. 23-26 at the home of her son, Mr. and Mrs. Junior Matthews. They stayed with Linda and Becky while their parents were gone to Portland.

Mr. and Mrs. Carl Hopper of Weiser spent a recent weekend at the home of her parents, Mr. and Mrs. Junior Matthews and family.

Bishop Laurence Hartley of Auburn, Wash visited Sept. 26 with Mr. and Mrs. Wesley Walker Sr. He was enroute to Delta, Colorado.

Mr. and Mrs. Wesley Walker Sr. visited his daughter, Mr. and Mrs. Gayle Martin and family.

handwriting

Vacation Notes

There's more to handwriting than meets the eye. This facility, which we often take for granted, actually is quite indispensable—even on vacation.

Take planning your trip for instance. Before you leave, list the clothes you'll need, places to visit, and estimated expenses. Write down the numbers of your travelers checks and credit cards and leave them with a friend, together with serial numbers of cameras, binoculars, portable radios and such.

On the trip, list daily expenditures for food, lodging, amusements, etc., to avoid running over your budget. Personal ratings of lodgings and restaurants, evaluations of highways and charges for tolls can be helpful for next time.

Photographs can make a vacation, but take notes on the what, where and how of each snapshot, so there's no guessing when you're home.

A diary for reminiscing and reference for future trips, is a must, as are post-cards and letters home. And here, legible handwriting is most important. No one welcomes a message they can't read, and the most precise notes are meaningless if illegible.

Busy lives demand good handwriting—even on vacation. (NP Features)

Field-Burning, Under New Plan, Permitted Seven Days Per Year

Field burning would be permitted only seven days a year if a new plan, authored by seed dealer Larry McKennon, is adopted.

Speaking to the board of directors of the Agri-Business Council, McKennon outlined his proposal which calls for a total ban on field burning in five years, and allows only 7 days of burning per year in the interim.

During this interim period, the plan also prohibits field burning during the months of June, July and the first half of August. McKennon said that Oregon's grass seed growers could get their fields burned if seven days of unrestricted burning were set aside annually. Burning would be done in late August and in September.

The seven days would be established by a committee of growers in cooperation with the Environmental Quality Control Board, State Fire Marshal and the U. S. Weather Bureau. The seven days would not be consecutive, to allow for proper dispersement of smoke.

Charles Kizer, Harrisburg seed grower, echoed the point that the "seven day plan" is a workable solution. He observed that a number of other people are working independently on solutions, as well. He said that portable incinerators are now being tested, as well as other types of smoke-free burners to eliminate open fires. Kizer mentioned, also, that a method of sanitizing the ground with steam is being explored. Improved propane burners are another possibility, he said.

Dr. Virgil Freed, head of the Agricultural Chemistry Department at Oregon State University, said that research has been accelerated to find uses for the straw which is left after the harvest of grass seed.

He suggested it would be in the best interest of everyone in the state if the 700,000 tons of straw that are now burned could be put to a constructive use. "We hope to be able to prove that this straw is a resource, not a liability," he said.

Freed said the straw has a number of useful properties and could be processed into animal feed, bedding material for animals, even fuel. He noted that it can also be formed into products such as

particle board and wall siding. At least 12 different plastics can be made from the straw -- some with great strength, others with extreme durability, he observed.

The straw can also be converted into liquid chemicals, detergents, and a very good organic fertilizer with excellent water holding properties.

It's Your Law!

Parking Lot Accident

Mrs. Jones parked her car in the supermarket parking lot while she shopped. When she returned, she found that someone had backed into the side of her car, causing considerable damage. The other driver had left without leaving his name.

Fortunately, another shopper witnessed the accident and informed Mrs. Jones of the license number of the other car. What can Mrs. Jones do about it?

The police usually will not make an accident report, or issue a traffic citation occurring on private property.

The Motor Vehicle Code - which sets forth the rules of the road - applies only to the operation of motor vehicles on public streets and highways, it does not apply to accidents on private property, such as a store's parking lot.

The police were glad, however, to obtain ownership of the offender's car from the license number and tell Mrs. Jones, so she could pursue her own remedies.

Even though the rules of the road do not apply off the street, the common law rules of negligence do. Thus, anyone who negligently causes injury or damage to another can be held civilly responsible for the damages. In this case, Mrs. Jones has a cause of action against the other person, and should be able to collect for the damage to her car.

Also, remember that the liability insurance carried by most vehicle owners does cover accidents both on and off the highway. Here the other car owner's insurance company would probably cover the damage to Mrs. Jones' car.

(Oregon lawyers offer this column as a public service. No person should apply or interpret any law without the aid of an attorney who is completely advised of the facts involved. Even a slight variance in fact may change the application of the law.)

My Neighbors

Sign in a bank: "Remember, part of what you earn belongs to you."

1970 Caprice.

A lot of cars cost more. But few if any are really that much more car. Which explains why more and more of the smart money is coming to Caprice. Look what you get: A big substantial 18-foot-long prestige car with a new 350-cubic-inch V8 engine, power disc brakes, Astro Ventilation, wheel covers, deep tinted carpeting, posh appointments. A remarkably roomy interior, with a ride so smooth and

silent you'll feel like Mr. Big himself. Tell you what, though. If you absolutely insist on a more expensive car, we won't stand in your way. Go ahead and order air conditioning. Order stereo. Order tinted glass, power windows, 6-way power seat, our new Headlight Delay System. Your Chevrolet dealer will happily help. See him real soon. Putting you first, keeps us first.

If you spend more for a car, you must want to spend more for a car.

Firemen Summoned
SEPT. 25—The Nyssa volunteer firemen were called to 612 N. 2nd due to an over heated stove. It is reported that all was under control when they arrived.

IS YOUR BATHROOM MINUS a shower? A new device sometimes called a "telephone shower" requires no additional plumbing and is easy to install. (It looks somewhat like a telephone receiver.) Water from the spout is diverted through a flexible hose to the telephone showerhead which can hang on the wall. Instructions and parts necessary for installation are included in a kit. This type of shower is handy for bathing children, washing hair, or for older people to use while sitting on a bench in the tub. 39-2tc
