MEAT BUYER COURSE SCHEDULED

Registrations are now being accepted for the correspondence course, "You -- The Informed Meat Buyer," Mrs. Helen Conner, Malheur County Extension Agent, reports.

The course, scheduled to start Oct. 13, has been tailored to the needs of the young homemaker who needs all the information she can get to provide her family with wholesome, high quality, properly prepared meat at a cost that will fit into her budget. The lessons will also prove helpful to the more experienced homemaker who would like a refresher course in identifying cuts of meat, cooking methods suited to each, and recipes that will enhance selected cuts of beef, pork, lamb and poultry. Since meat accounts for at least 25% and sometimes as high as 40% of the family food bill, this should be an important course for area homemakers.

Homemakers may call the Malheur County Extension office in Ontario at 889-9129 to add their names to the list of registrants.

Ration Formulation will enable students to combine the various nutrient materials found in feeds to meet the requirements of the animal for desired levels of production.

The third course, Farm Machinery and Repair, is slated to begin early in November. Students will be able to identify the principles of hydraulics and combustion engines, both gasoline and diesel, and other factors of maintaining farm equipment.
