Here are some little things you can do to keep Oregon livable

Kick your car's smoking habit. All cars contribute to air pollution. But if your car smokes, it compounds the problem. Get it fixed.

Drive less. Contrary to what you may think, 60% of the air pollution in Oregon cities is caused by people driving cars. You can help clear the air by driving less. Share rides more. Use public transportation more.

Spend a few bucks for the environment you enjoy. Support tax and bond measures designed to improve Oregon's environment.

Let litter bug you. Don't let litter lie around. If it's yours, take it with you. If it's somebody else's, make the big sacrifice and pick it up.

Worry a little. Don't put this problem out of your mind. It's *your* problem. So anytime you see an abuse of Oregon's environment, report it. Let your local or state government people know about it.
