Accutron... Precisely what he wants for Christmas

If his time is precious, give him Accutron... the watch that has no balance wheel, no mainspring, no hairspring. Instead there's a tiny, electronically-powered tuning fork.

The tuning fork splits a second into 360 equal parts. The best a ticking watch can do is divide a second into 5 or 10 parts.

Accutron time is so nearly perfect that Bulova guarantees monthly accuracy to within 60 seconds.*

ACCUTRON DATE AND DAY "M" - 14K gold filled, Silver dial. \$195. ACCUTRON DATE AND DAY "S" - Stainless steel, Ebony dial \$175.

Accutron* by Bulova

*We will adjust to this tolerance, if necessary. Guarantee is for one full year.
