Life without doubt

Do you ever doubt the sun will rise in the morning? Even if rain or fog hide its rays, you know it's still there. You don't doubt this because you are familiar with the laws governing the earth's relationship to the sun.

In the same way, each of us could eliminate much fear and doubt from our lives if we understood the laws governing man's relationship to God.

Hear James Pike, of The Christian Science Board of Lectureship, tell how effectively people have been able to act, even in a grave crisis, by listening to God's direction.
