10 YEARS AGO

Mrs. Buster (Betty) Talbot was hospitalized Friday evening following a one-car mishap. She reached to keep a sack of groceries from overturning, causing the car to go out of control. Mrs. Talbot, daughter Ladeana, 7, and the family cocker were thrown from the vehicle.

The car came to rest upside down on Mrs. Talbot. Ladeana ran to the Eugene Cleaver home for help. Cleaver, assisted by Leo Fife and son, Blaine, assisted in raising the vehicle to release Mrs. Talbot.

She was badly bruised but suffered no broken bones or lacerations. Mrs. Talbot feels fortunate that she and her daughter, who suffered only slight bruises, came through the ordeal as they did. She was released from the hospital Tuesday and is recuperating at the home of her parents Mr. and Mrs. Charley Culbertson.

Despite the testimony of technical experts of the highest authority and despite the practical terms afforded by the daily experience of millions of users, the belief that there is distinguishable difference between sugar from beets and that extracted from cane dies hard.

Perhaps nothing illustrates the fallacy of the oft-repeated discussions as to the relative merits of cane and beet sugar more conclusively than the fact that the same charges and complaints that are lodged against beet sugar on one side of the Atlantic are charged up to cane sugar on the other side. Readiness to suspect the stranger, of the unfamiliar product, apparently is an old deeply ingrained trait of human nature.

Granny's RECIPES & RULES

CORN MEAL MUSH OR HASTY PUDDING

When the water is boiling, salt it and scatter the meal in by the handful, stirring constantly. Make it a thick, smooth batter, and at last stir in a good handful of flour. It helps bind it, and makes it better for frying.

FRIED MUSH

When hasty pudding is made, it should be put into a baking tin to mold for frying. When cold, cut in slices and fry slowly in drippings of lard, a crisp brown on both sides. Eat with syrup.

GRAHAM MUSH

One cup graham to 4 cups of water. Put graham into 2 cups of cold water, make it very smooth and free from lumps, then stir into this the 2 cups of boiling water. Stir rapidly, and let it cook for 5 minutes. Then set on the back of the stove where it will cook slowly for a half hour or longer. A delicious breakfast dish may

be prepared by adding 3 tart apples, sliced as for pies to the mush when it is set on the back of the stove. Cover and do not disturb until the apples are done. It will be perhaps 1/2 hour. Serve with cream and sugar.
