Welcome, Rockhounds!

Once again Nyssa is playing host to people from all over the country as rockhounds gather for our sixth annual Thunderegg Days. We welcome them and hope that they have the usual good luck in finding the rocks they seek, and that they also enjoy their stay in Nyssa and their visit with our citizens and fellow rockhounds.

These visitors not only look for these semi-precious stones, but they bargain, trade, buy, sell and just look at what the other fellow has. After visiting with some Tuesday evening, we know that they also have some good stories to tell and are very interesting people.

We encourage Nyssa residents to get acquainted with our visitors, as we have tried to do, and think that the experience is most worthwhile. We also encourage everyone to come out and enjoy the barbecue tonight (Thursday) put on by the Nyssa Jaycees. It is always an excellent meal, and features some of the best pit barbecued beef that you will ever eat.

We suggest also that you stick around the park and visit with friends and visitors, and enjoy the program that follows. Bob Kindschy of BLM will present slides on Malheur County that are excellent. The rock exhibits at the old gym are also well worth seeing, and this year will feature exhibits from several new clubs. The ice cream social put on by the Methodist Church Friday evening also promises to be an enjoyable event.

Wayne Moncur and the Thunderegg Days Committee has worked hard for months preparing for this event, which includes answering over 200 letters from many parts of the United States and Canada. We commend them for their hard work, and hope that the whole community will share in some way with the experiences of our visiting rockhounds.

St. Bridget's News

Most Rev. Thomas J. Connolly D.D. Bishop of the Diocese of Baker spent a delightful weekend at St. Bridget's parish visiting with the parishioners on several occasions. He spoke at all the Masses and participated in a social of coffee and doughnuts following the Sunday morning Masses. On Sunday afternoon Bishop Connolly and Father Young participated in the Mexican-American Fiesta at the Caldwell Memorial Park. Bishops Connolly, Treinan, and Flores with several priests from Mexico, concelebrated the Mass there.

If there is enough interest among those who have been playing chess there will also be a chess tournament.

Mrs. Dirk DeBoer has inaugurated her classes of teaching the reading of the English language to adults. In Memoriam

August 1, 1970

Michael, Debbie and Cynthia Richter

"I'll lend you for a little time some children of mine," he said, for you to love the while they live, and mourn for when they die.

It may be six or seven years --or twenty-two or three. But will you, till I call them back, take care of them for me?

They will bring their charms to gladden you, and shall their stay be brief, You'll have their lovely memories as solace for your grief.

I cannot promise they will stay, since all from earth return, but there are lessons taught down there I want them to learn.

I've looked the wide world over in my search for teachers true, and from the throngs that crowd life's lanes -- I have selected you.

Now -- Will you give them all your love, nor think the labor vain, nor hate me when I come to call to take them back again?

I fancied that I heard them say: "Dear Lord, Thy will be done." For all the joy these children shall bring, the risk of grief we'll run.

We'll shelter them with tenderness; We'll love them while we may, and for the happiness we've known, forever grateful stay.

But shall the Angels call for them much sooner than we planned, we'll brave the bitter grief that comes and try to understand.

Mrs. Ann Richter
 Mary Jo, Fred, Diane, Chuckie, Julie, Tony Jr., Aleta, Tony III, and Kris

OUT OF THE PAST

10 YEARS AGO

Nyssa factory of Amalgamated Sugar Company is again making extensive additions and improvements to care for the largest acreage of sugar beets ever grown in this area. Work is being done to house a new slope diffuser which will take up approximately 9400 square feet of floor space. The new silo under construction is 116 feet in diameter and will be 82 feet high when completed. It will hold 40 million pounds or 400,000 100-pound bags of sugar and will almost double the amount of bulk storage capacity.

20 YEARS AGO

Some damage was caused to farm crops, trees and electric power installations by the storm sweeping this area Saturday and Sunday. The heaviest windstorm occurred Saturday evening. The lightning storm Sunday blew out a few transformer fuses. The rainstorm that left .28 of an inch of rain in Nyssa Sunday afternoon seemed to come from the hills north of Mitchell Butte and swept across Cow Hollow. Adrian received scarcely no rain and only a sprinkle fell at the Owyhee Dam. The storm climaxed several days of extremely warm weather.

30 YEARS AGO

The laying of the storm sewers and the paving of Main Street may begin about October 15, according to Frank T. Morgan. This work was brought out of the meeting with the Highway Commission last Thursday.

40 YEARS AGO

Recruit Marcella Vandrell, daughter of Mr. and Mrs. L.H. Vandrell of Nyssa, recently completed eight weeks of basic military training at the Woman's Army Corps Center, Fort McClellan, Ala.

50 YEARS AGO

While Ed Christensen was endeavoring to take a census of the catfish in the lagoon that divides his poultry farm south of the city, the other day, he noticed a heavy, oily scum floating on the surface of the placid waters. "I wonder if that isn't some kind of gas?" mused Mr. Christensen, as he touched the flame of a lighted match to the substance. "Great Catfish! It is!" he yelled as a sheet of flame shot up in his face and over the water.

No bells rang, no whistles blew, but nevertheless it was a jubilant crew of miners and muckers who tunneled through the last foot of the J.F. Shea Company contract in Tunnel No. 5 to complete excavation on the first tunnel contract on the Owyhee project, the tunnel is 11,200 feet in.

70 YEARS AGO

Daylight did not greet the tunnelers as the other half of Tunnel 5 is being excavated by S.S. Magoffin Company. Water bearing sand is retarding progress to a few feet a week in this link.

80 YEARS AGO

When Tunnel 5 is completed it will be 9 feet 3 inches in diameter, and 4 1/2 miles long. It will carry water to the Gem unit.

90 YEARS AGO

Remember my 10th birthday, when you gave me that funny piece of green paper and everybody made such a fuss over it. (Except me.) Frankly, it was a pretty disappointing present for a kid. I couldn't eat it, couldn't play with it, couldn't wear it—and Mom took it away from me practically the minute I got it.

100 YEARS AGO

And every birthday after that (and Christmas, too), you gave me another one of those Bonds, you called them. I thought you were pretty gooney.

At least, I never had to guess what I was going to get from good old reliable Aunt Sarah.

Pounds recently bought the drug store and fountain from Holly Brothers and will operate them in addition to his duties as postmaster. Don Moore will operate Pounds' barber shop for him.

120 YEARS AGO

Mrs. Mary Swan gave a birthday dinner Sunday in honor of her son Andy Swan. Four generations were present, baby Delores, her parents Mr. and Mrs. John Koopman, grandparents Mr. and Mrs. Andy Swan, and great-grandmother. Baby Delores is a lucky child. Besides her parents, she has four grandparents and four great-grandparents living. Among the latter are Mr. and Mrs. John Stam.

Farmers along the Nyssa-Buhl extension, between Nyssa and Hamedale, will receive over \$40,000 in cash from the Oregon Short Line within the next few weeks, in payment for lands used by the railroad company for a right of way.

Prices paid range from \$50 to \$200 per acre, in about the following proportions: Six miles will average \$150 per acre; eight miles will average \$200 per acre, and the remaining 16 miles, through dry lands, \$50 per acre.

Aunt Sarah, I love you.
