

Packwoods Travel In Motor Home

U.S. Senator Robert Packwood is shown alighting from the motor home that he and his staff are using to tour Oregon during the month of August. Two of the secretaries in the senator's Portland office, Pat Smith and Judy Campbell, are shown with Mrs. George Packwood during their Nyssa visit Monday.

SBA Sets New High In Small Business Loans

Federal lending to assist small businessmen hit a new high in the Boise Small Administration district last fiscal year, Oliver Davis, District Director reported today. The Boise district approved funds for 193 firms, he related, an increase of 57 loans over the previous years totals. Total dollars committed climbed to \$11,668,800, an increase of about 35% over the previous high which was recorded in Fiscal year 1970. Largely, Davis points out, this represents "new dollars" not otherwise available through normal lending channels to as-

PROVEN WHEAT YIELDS ACCEPTED

The basic provisions for proven wheat yields are continued under the Agricultural Act of 1970, according to Blaine Girvin, Chairman of the Malheur County Agricultural Stabilization and Conservation Service.

Farms with effective wheat allotments for 1972 are eligible for an established proven yield. Producers on these farms can elect to establish a yield for the farm based on the actual production rather than the yield established by County Committee judgement. The base period to be used for the 1972 proven yields will be the actual production on the farm for the years 1968, 1969 and 1970. Girvin stated that there are several requirements to be met in order to prove yields. First, the farm must have had an allotment and must have harvested wheat in each of the base years. In addition, the producer must submit actual production evidence for all his wheat acreage harvested in each of the three base years.

It is a recognized fact that in the past several years new varieties of wheat and improved farming techniques have increased wheat yields considerably. In order to reflect these changes Girvin reminded farmers to keep records and when they have sufficient production records on hand, submit them to the county ASCS office for a proven yield. For a 1972 proven yield, records must be filed in the county ASCS office by August 25, 1971.

BSC TO REGISTER STUDENTS AUG. 30

Registration at Boise State College will be held August 30 and 31, according to Dr. Guy L. Hunt, 4803 Richardson, director of admissions. Dr. Hunt said, however, that all application procedures must be completed by August 20 for students to enroll at regular registration time. Dr. Hunt stated complete application for registration includes all application forms, physical exams signed by the family physician and transcripts accompanied by a \$10 application fee to the Admissions office. This is for students who have not attended Boise State College. Spring semester students who completed spring semester do not have to apply again, Dr. Hunt said.

New and transferring students attending BSC for the first time who do not complete all application processes by August 20 may be placed in the position of registering after classes have started. There is an additional fee at the rate of \$5 per day up to a maximum of \$15 during the first week of school. Dr. Hunt said late applicants also stand the chance of not being able to take the classes they wish because many classes and sections fill up during regular registration.

NUTTY PUZZLE

If you can figure out 15 words or more with these letters from the word Nut Log, the famous candy bar made by Luden's Inc. of Reading, Pa., then you can also figure out getting a nice gift from this world-famous candy maker.

We regret that you can't use two-letter words, but in the hope of boosting you in the right direction, we offer you these three words plucked from the word Nut Log: "Go" "On" "To" success.

The rules of the game are easy: scramble the letters of Nut Log, spell 15 words (such as "nut") and mail your answer to Luden's Inc., Nutty Puzzles, 275 South 19th Street-15th Floor, Phila., Pa. 19103. Luden's will send you a jigsaw puzzle that will make your mouth water.

The rules of the game are easy: scramble the letters of Nut Log, spell 15 words (such as "nut") and mail your answer to Luden's Inc., Nutty Puzzles, 275 South 19th Street-15th Floor, Phila., Pa. 19103. Luden's will send you a jigsaw puzzle that will make your mouth water.

Southeast Idaho recorded the largest increase where nearly three times the lending occurred over the previous year. Twenty-nine borrowers were assisted with \$3,186,000, up from \$1,530,000 the year before. Largest block of commitments went to southwest Idaho firms where 88 businessmen obtained \$4,378,200 in needed funds. Other area lending included \$648,500 to 16 eastern Oregon firms, \$1,767,600 to 37 south central Idaho businessmen, and 23 loans totaling \$1,688,000 to east and north central Idaho firms. During this same period, the Spokane Washington SBA office approved 66 loans for \$2,466,160 to north Idaho firms. This brings the Idaho total to \$13,486,460 for the past year, Davis relates. A new high in approval rate was also recorded last year, when 98% of all loan requests processed were approved for funding.

This large increase in borrowing indicates increased optimism for the future of the District, Davis emphasizes. Most loans include new facilities, equipment, added inventories or working capital, he said. This directly reflects new needs for goods or services as well as growing importance in production and distribution.

The SBA may commit funds for expansion and strengthening of existing businesses as well as the creation of new enterprise, he explained. Most commitments are made by SBA guaranteeing up to 90% of loans made by banks and other lenders. SBA may also supply part of the funds in participation with other lenders and in some cases can make direct loans when financing is not otherwise available. Last year, over two-thirds of all agency commitments were in cooperation with banks, Davis said.

Meier Named 4-H Club Foundation Director

Mr. Kenneth Meier has been named Executive Director of the Oregon 4-H Club Foundation, effective September 1, Louis B. Perry, President of the 4-H Foundation, announced today. Mr. Meier is trust officer for the First National Bank of Oregon. He succeeds Burton S. Hutton who has been Executive Director since his retirement in June, 1970, as state 4-H leader in Oregon, and who had asked to be relieved of his 4-H Foundation responsibilities because of health reasons. Mr. Perry, who is executive vice-president of the Standard Insurance Company, Portland, indicated that the 4-H Foundation is very fortunate to have Kenneth Meier as the new Executive Director, thereby enabling the 4-H Foundation to carry on the expanding programs supporting 4-H and other youth education in Ore-

gon. Mr. Meier is a former 4-H member and 4-H leader, as well as having served as a 4-H extension agent in Marion county. He has been active in insurance and general merchandising prior to affiliation with the First National Bank where he had been agricultural representative and regional sales manager prior to moving into his present trust officer position. Primary 4-H Foundation programming in support of youth education in Oregon is the development of the 720-acre Oregon 4-H Education Center in eastern Polk County, eight miles west of Salem. This Center will provide, when fully developed, training facilities for 800 to 1,000 boys and girls at one time. The Center will serve other young people, as well as 4-H members, Mr. Perry indicated.

The Miner Comes To Town

When a Miner comes down from the hills, His cabins are locked and his pokes are filled. He longs for the bright lights that shine 'long the streets He loves the pert maidens with pink in their cheeks He gambles and frolics as no man should do. He drinks the four roses that glow in the glass A thinking his money forever will last. But when his money dwindles his friends they are gone Even the girls - they have all said "So Long". Just like a moth that is flying around, Singeing it's wings in the light it has found. He's now learned a lesson from the lights on the street Something he knows he will never repeat. And back to the cabin and hills he will go, And the next time he comes he will go mighty slow. Composed by George Moore.

Educational Aid Paid To Oregon Veterans

State educational aid benefits were paid to 327 veterans in fiscal 1970-71 in the amount of \$38,593, H.C. Saalfeld, Department of Veterans' Affairs director, reported today. This was a drop of 31 from the previous year and a \$3,282 decrease in payments. The program, administered by the State veterans' department, has paid benefits to 14,730 veterans in the amount of \$4,282,894 during its 26 years of operation. This is an average payment per veteran of \$290. Saalfeld said currently about half the new applications are coming from Armed Forces Expeditionary Medal and Vietnam

Service Medal veterans, and most of the remainder from Korean veterans. The only World War II veterans still entitled are those who enrolled in the program before June 30, 1959, and have not used up their entitlement. There is no deadline for Korean or service medal veterans to enter the program. The State benefit pays \$50 for each month of full-time undergraduate college studies, and up to \$35 a month for other studies, based on one month's entitlement for each month of military service up to 36 months. The veteran must have had three months of service and have served during wartime or after

GSA TO AUCTION FEDERAL VEHICLES

General Services Administration will offer by auction, Sale No. 10DPS-72-220, at Vancouver, Washington, approximately 125 items of automotive equipment on Saturday, August 21, 1971.

Items to be sold were recently in use by Federal Agencies in the Portland-Vancouver area, and most of them are in operating condition. The sale will include pickups, sedan deliveries, carryalls, sedans, vans, station wagons, cab & chassis, stakes, air compressor, dump, grader, and 4x4 vehicles, including carryalls, pickups and scouts.

Interested buyers may inspect the equipment at GSA Sales Site, adjacent to and south of VA Hospital. Inspection may be made on August 19 and 20, between 9:00 a.m. and 4:00 p.m. and on August 21, from 8:00 a.m. until sale starts at 10:00 a.m. Partial payment of 20% of the sale price is required at the time of purchase. The balance must be paid by August 27. Personal checks will be accepted. Further information may be obtained by calling the GSA Interagency Motor Pool in Portland - 234-3361, Ext. 4887, or General Services Administration in Auburn - Temple 3-6500, Ext. 491.

Producers To Benefit By Farm Credit Bill

"The Farm Credit Act of 1971, still pending in Congress, would greatly expand available operating credit to farmers and ranchers," according to Wm. F. Barratt, president of the Federal Intermediate Credit Bank of Spokane. Referring to a provision that would allow Production Credit Associations (PCAs) and commercial banks to cooperate on larger loans, he said, "This one section of the proposed legislation is possibly the most important of the Production Credit portion of the bill." Barratt said the bill had passed the Senate and House hearings had just been concluded.

With reduction in traditional correspondent relationships between city and rural banks, availability of adequate capital to finance ever expanding agricultural units has been diminished, Barratt said. "Not only does this hinder agriculture, but it 'cuts off the oxygen' to many of our rural banks that depend heavily on agricultural loans."

FEEES FOR LEARNER PERMITS UPPED

The fee for an instruction permit to learn to drive will increase in Oregon early in September.

The Motor Vehicles Division says the fee, changed by the 1971 Legislature will increase from 50 cents to \$1. The instruction permit will remain valid for one year. It permits driving a car when the learner is accompanied by a licensed driver at least 18 years old. The licensed driver must be sitting beside the learner.

Several other fees were changed by the same legislation. Fees for duplicate license plates or validating stickers went from 75 cents to \$1, and the fee for obtaining a duplicate driver's license that has been lost, mutilated or destroyed increased from 25¢ to \$1.

One fee, however, was eliminated. If a driver moves or changes address or has a change of name due to marriage or court order, DMV will issue a duplicate license at no cost.

This step was taken to encourage people to keep the Division's records current. The law requires notice of change of address or name within 30 days after the change for both a driver's license and a vehicle registration.

All fee changes will take effect September 9.

loans, greater efficiency would be realized, rural banks would gain and producers would benefit. With both lenders working together on a local basis, consultation would be easier and more timely. This would result in improved service to a larger number of agricultural borrowers, the credit bank president believes.

The Farm Credit Act of 1971 was proposed after a 27-member Agricultural Credit Commission spent 10 months studying future agricultural credit needs and the ability of the farmer-owned Farm Credit System to meet these needs.

The FICB of Spokane is owned by PCAs serving Washington, Oregon, Idaho, Montana and Alaska and is the primary source of funds for the 30 PCAs in this area. The FICB obtains funds by selling debentures to the investing public through security dealers across the country.

Barratt concluded by emphasizing the present needs of agricultural producers for operating capital. During 1970, the PCAs loaned over \$660 million to farmers and ranchers in the five state area. When you consider that PCAs are supplying over one-fifth of the total needs of farmers and ranchers, and that the need is expected to double by 1980, the importance of the passage of this bill becomes even more evident.

WORK SMARTER - NOT HARDER

ARE YOUR CHILDREN uncooperative about home chores? Parents should ask themselves these questions: Are some of the child's jobs his own choice? Did he have a part in the planning? Are they real jobs and within his ability? Are they challenging? Do you reward with praise and a pleasant smile? Do you make him feel his job is important to the household? Are your standards too high?

Spray dyes on upholstery or rugs can be used to brighten faded items but do not expect to change the color completely. In other words, you can't make a blue rug brown. But a faded blue rug or upholstered chair may be given new life.

Be sure to get dyes intended for this purpose and follow carefully the instructions on the label. Be sure to give the spray plenty of time to dry before using the rug or upholstery.
