The preferred pre-bloom spray for seed alfalfa is CYGON... at only \$1.99 per acre

CYANAMID

CYGON\* 267 Systemic Insecticide gets the nod from growers and agricultural authorities because its 3-way action gets results at a practical low cost.

CYGON provides a high contact kill, residual activity on the foliage and systemic protection from within the plant. Used in the pre-bloom spray program, it protects the developing plant buds against lygus, aphids, leafhoppers. Prevents blasted buds, blossom drop, shrivelled seed.

CYGON comes in 1 and 5 gallon containers for ease in handling. Plan your program now and order CYGON from your insecticide supplier.

Before using any pesticide, stop and read the label.
