## Budget Election Friday, June 9

Nyssa school district patrons will again go to the polls Friday to vote on the operating budget for the 1972-73 school year. With the success of our school system of such vital importance to all of us, including those of us who have seen our own children successfully through the first twelve years of their schooling, we urge you to vote Friday.

We are going to the polls, as we always have, to support the budget. Fortunately, in this country, ours is a freedom of choice by means of a secret ballot. Not all of you will favor the budget, and perhaps with good reason.

It has always seemed rather presumptuous though, to elect a school board, ask them to spend the countless hours that they and other budget committee members do in preparing a budget, and then say no, we don't approve of your actions.

I believe in representative government, which is the way we operate. I believe that when I help elect a man to represent me on the school board, and ask him to spend as much time as he must in evaluating the programs and doing all the thankless work that this kind of public service entails; the least that I can do is support his judgment. He has all the facts and figures, I have none.

Who are our school board members? Harold Kurtz, Vic Haburchak, Gene Stunz, Don Engstrom, Mark Hartley, Ray Larson and Van Ure. As representative a group of business, professional and farm oriented men as you could find in any community; but primarily motivated to help provide us with good schools.

Who are the budget committee members? Woody Seuell, Larry Saito, Dee Garner, Rudy Longoria, Bud Sappe, Keith Langley and Joel Mitchell. Again, responsible citizens and property owners who have labored hard to give us a budget that can provide an educational program within our means. I am not about to say that my judgment is better than theirs.

This group of 14 men has had the responsibility of building a budget that provides the necessities of an educational program, the needs of a building maintenance program, the requirements of state accreditation, and all within the financial limitations of a rural, farming community.

That they and their predecessors have done this job well goes without saying. The state average for the 1970-71 school year was \$853 cost per pupil per year. The county average for the same year was \$714, and Nyssa was \$654, the lowest in the State of Oregon.

If this was the only yardstick for measuring the education of our kids, it would not interest me in the slightest. If our kids were getting a poor education by saving a few bucks, I would think that would be the very shabbiest form of economy.

This is not the case. Scholastically, our students measure up to the very best in the state, and always have. Almost every week we publish news items of some outstanding work our former students have done in their respective schools or occupations.

Athletically, our teams have been at or near the top in almost every sport. Science, music, drama, speech, or any other school supported class or activity; the accomplishments speak well for the student, teacher and administration. And in these days of student unrest and activism, we in Nyssa have had less trouble than almost any school anywhere. In fact, we just don't know what trouble is.

This is not to say that those of you who own and pay taxes on large property holdings are not paying more than your share. We know that, and so do the members of the budget committee, many who are in that jam. Budgets aren't tax programs, though, but simply an expenditure guide for a given goal.

Our goal is a good educational program, thankfully at the lowest cost per pupil in the state; and we commend the school board, administrator, and citizens of this school district for insuring its continued success.

### Mrs. McDermott Suffers Burns

## OUT OF THE PAST

### 10 YEARS AGO

Sammy Williamson, son of Mr. and Mrs. W.L. Williamson, was named captain of the year. Scott Jefferies, son of Mr. and Mrs. Marvin Jefferies, was named outstanding patrolman of the year. Both boys received a trophy, they were school patrolmen during the year.

### 20 YEARS AGO

Thursday morning all postal employees here agreed to let their beards grow until they receive their pay checks. "We will have long whiskers to match our long faces," one of the clerks commented. "All we hope is the public will write their Congressmen if they don't like our appearance," he went on to say. Employees have not been paid due to lack of funds.

### 30 YEARS AGO

A cloudburst of unprecedented proportions in this area, followed by a severe hail storm, struck at a point eight miles from Vale up Willow Creek Valley last week, destroying several thousand dollars worth of property. Laterals and irrigation ditches were washed out, field crops destroyed and great gulches washed through cultivated fields.

The water washed over the highway in places, cutting deeply into the shoulder and covering the pavement with mud and debris. The railroad tracks were under water for several miles. Hailstones an inch in diameter covered the ground to a depth of several inches. The hailstones pelted the buildings with such force that paint was peeled off in places and dents appeared in the sidewalls as though made with a nail hammer. Melted down into sheets of ice, they still were in evidence as late as Wednesday in drifts two or three inches deep.

### 40 YEARS AGO

If the Boy Scouts had not eaten the hot cakes they baked at the rally in Caldwell Saturday, before the judges saw them, they might have brought home another blue ribbon.

In the two projects, which had won their careful study, knot tying and compass test, they won two ribbons. A team consisting of Lloyd and Calvin Wilson, Warren and Howard Larsen, Arthur Cook, Harold Anderson, Curtis Foster and Clifford Lathen won first, in the compass test. The knot team, which took second place, included Roy Nadeau, Arthur Cook, Robert, Lloyd and Calvin Wilson, Bruce Fahrney, Howard and Warren Larsen and Curtis Foster. Nyssa placed fifth out of 12 troops.

### 50 YEARS AGO

A mass meeting of Nyssa citizens is called to consider the matter of extending the line of the low pressure water system about 300 feet farther so as to obtain an outlet at the lower end of the system for the surplus water and bring the system under better control and make the water more available to more people.--P.M. Warren, Mayor.

### OLDEMEYER ON SUMMER CRUISE

Midshipman Keith Oldemeyer will leave Annapolis June 8 after completion of his plebe year at the Naval Academy, and will board the U.S.S. VANDERBILT (LPD-2) at San Diego for the summer cruise, along with many of his Academy shipmates.

According to his parents, Mr. and Mrs. Don Oldemeyer, Keith attended the Memorial Day 500 auto race at Indianapolis. Keith played on the plebe baseball team, and finished his first year on the academy honor roll.

## Why a \$2,000 Volkswagen costs a lot less than any other \$2,000 car.

Listen to the logic: Give or take a few dollars, most new economy cars are priced just about the same these days.

Around \$2,000.

But come trade-in time, a weird thing happens. Some are worth more to you than others.

And based on what's happened in the past, after 3 or 4 years, not one is worth more cash than you-know-who.

The Volkswagen Beetle!

So the real price you pay for a car is the difference between what you pay now and what you get back later, when you sell it.

Anyhow, take a good look at the chart on the right.

And please be careful.

It's one thing to say today, "I just

bought the lowest-priced car in town."

It's another thing tomorrow to say, "I just sold the lowest-priced car in town."
