In this busy age some neigh-Roger Baker and children of bors in Nyssa still join to-Ontario were Friday evening gether for a family potluck picnic in their back yeards. The John Marsh home was a gathering of all the near-by neighbors Sunday, July 23. The Wilton Jacksons' barbecued the beef for the get-together. Everyone brought potluck for the dinner. Those attending along with their families were: the Harry McGinleys, Harold Robinsons, Joe Martins, Merlin Looneys, Ray Rankins, Jim Swords, Art Bullocks, Max Brittinghams, Glade Chadwicks, Bill Wahlerts, Bill Glade Chad-

Winns, Dean Souths,

Questions VA Asked Often

Listed are some of the questions most frequently asked by the nearly 330,000 veterans in the State of Oregon concerning Federal benefits provided for them through the Veterans Administration.

Q - What is the maximum home loan which may be guaranteed under the G.I. Bill?

No maximum limit is established by law. The veteran's income and ability to make payments is the limiting factor.

C - How large a down payment is required on a G.I. loan? - Generally, no down payment is required.

- Who is eligible for medical outpatient treatment?

- To be eligible for outpatient treatment, a veteran must have been discharged or retired under conditions other than dishonorable and be in need of treatment for disability incurred or aggravated in service: be a war veteran with total and permanent service-connected disabilities, be receiving aid and attendance or housebound allowance; be a Spanish-American War veteran; or be a disabled veteran training under the Vocational Rehabilitation Act.

Q - How long do I have after discharge to apply for dental treatment?

- Generally, one year. However, if you have serviceconnected dental conditions, were a prisoner of war, a Spanish-American War veteran or a disabled veteran training under the Vocational Rehabilitation Act, there is no time limit.

Q - If I elect to purchase the new National Service Life Insurance addition with my dividends, must I pay premiums on this new insurance? - No future premiums are required. This is paid-up

insurance. - May I purchase National Service Life Insurance in an amount greater than my 1972 dividend or the amount of

dividends on deposit?

How does going to school less than full time on the G.I. Bill affect my entitle-

A - Your entitlement is used at the rate in which you are paid. For example, if you receive pay as a half-time student for a period of 12 months, you will have used up six months of entitlement. However, you must remember that no payments may be made for training beyond the termination date of your entitlement which is 8 years after your separation or 8 years after the date the law was effective. Veterans who were separated prior to May 31, 1966, cannot receive benefits for training beyond May 31, 1974.

SPEAKING OF BOOKS BY CLYDE T. SWISHER

For those of you who were excited and fascinated by James Michener's novels HAWAII, THE SOURCE, SAYANARA, THE BRIDGES AT TOKI-RI, and THE CARAVANS, let me assure you that you will not be disappointed by this master storyteller's latest book, THE DRIFTERS. James Michener's latest novel, narrated by a sixty year old American financier who roams Europe and Africa in search of good investments, follows six young adults as they travel in search of something else, presumably themselves. The time is very much the present and along with the generic problems of youth, each young person has a special set of circumstances with which to contend.

In selecting subjects for a group portrait, Michener seems to have touched on all the bases. There is Joe, the idealistic draft-evader; Cato, the black militant, passive at heart; Gretchen, blue-stocking Boston folk-singer; Yigal, the serious Israeli with wealthy American grandparents, who must decide his nationality; Monica, pathetic drug addict daughter of a British ex-colonial; and Britta, the Scandanavian beauty in search of

Michener lets his narrator, Fairbanks, give us each of their case histories at length, along with the rather predictable circumstances of their departures from home. Then he sets up an eighth character as a foil. Harvey Holt, ex-Marine hero, resourceful technician in his forties, exemplifies Michener's view of the middle-aged American as disconcertingly naive and narrow-minded, yet admirably imbued with courage, integrity, and ultimate fairness.

Once Michener has assembled his characters in the lively youth resort of Spain's Torremolinos, Michener packs them into VW bus and sends them on their trip through some pretty interesting places. The people wander from Spain to Portugal, back to Spain, and then on to the exotic scenes of Mocambique and Morocco. We go through the horrors of drug addiction in North Africa, watch Cato, an incipient black Muslim, learn in Mocambique how active the Muslim slave-traders were, and are impressed with the running of the bulls at Pamplona,

Spain.

It is an interesting trip and Michener is an entertaining as well as knowledgeable guide. But there is more happening here than the matter of the generation gap. As Michener's many readers know, one of the great attractions of his story telling art is his skill in setting creditable imaginary characters in actions in authentic backgrounds. This is a big story composed of many stories -- stories of danger and violence and courage, of love, of racial and religious conflict, of the drug and rock sub-culture that many of the young have become involved with and many of their elders concerned about.

This is one unified story even though my description may make it sound like a group of short stories. It is true that Michener changes characters or adds new characters approximately every hundred pages. For one to understand the youth culture now, perhaps Michener's approach is one of the more pleasurable ways of viewing this culture from the armchair or the backyard chair as one of those steaks is broiling

Platform Committees Urged the Old Timer To Back Spending Controls

An all-out effort to control decade demands a return to federal spending and elimi- fiscal responsibility. "In fiscal nate low-priority government 1972, even the full-employprograms has been proposed ment budget will be in deficit by the National Association and this is very likely to be of Manufacturers in recommendations developed for the Association said. Platform Committees of the major national parties.

The NAM also urged the committees to support enactment of a firm expenditure ceiling encompassing all budget expenditures, including the so-called "uncontroll-

The NAM urged the platform framers to support public policies that encourage productivity improvement, which the Association said is "crucial to real economic gains at home and our competitive position in world

markets.' Capital Formation

The recommendations pointed out that this requires tax rates and a tax structure that encourage capital formation and productive new investment.

'The federal revenue gain from economic growth should not be encumbered in advance for spending, but should be largely earmarked for tax reductions," the NAM said. "With the Revenue Act of 1964, the 88th Congress made a commitment to encourage growth of the private sector as the basic source of economic progress for all groups. We believe that this is an appropriate time to renew this commitment."

Fiscal Responsibility The NAM emphasized that the fiscal history of the federal government in the last

"All the political talk true in 1973 as well," the about a new source of revenue simply means tapping In calling for control of the same old taxpayer in a spending, the NAM warned brand new place." that "no nation has enough

BICYCLE DRIVER SAFETY is the goal of American Bike Month this year. With more cars on the road than ever before, and with more than 63 million Americans riding bikes each year, a safe bike and a safe bike driver are more important than ever. According to the National Safety Council, most serious accidents occur to cyclists at intersections. Bike drivers should use recognized hand signals to signal turning or stopping, and use particular caution at intersections.
