AGRICULTURE DIRECTOR **PREDICTS BILLION NEW** CUSTOMERS FOR FARMERS

ture Irvin Mann, Jr., on September 5 told The Dalles Lions Club that a billion new customers for United States agricultural production has brought depression and in a fortress this nation to a turnaround in farm policy.

Recalling the philosophy of depression and of isolationism born of the first world war, Mann said that recent trade developments in relations with Japan, Russia and Red China have brought a turnaround from production. a contracting, controlled farm economy to a dynamic, growing farm economy.

"We are rapidly establishing fruitful trade relations with the Union of Soviet Socialist Republics and President Nixon has visited Peking, the capitol of the People's Republic of China ... we will soon be establishing trade with them. The Japanese nation has the most favorable balance of trade in its history and is so affluent that it is actually looking around for means of spending money in order to aid our balance of trade," Mann explained.

The director said that this represents more than a billion new customers and that this reversal of form can't happen without changing the whole direction and thrust of our economy, particularly our farm

"So it is not just happenstance that Russia has placed the biggest order for wheat that has probably even been placed anywhere in the world. 'No nation in this world can suddenly acquire one billion

David Wilson Art Displayed

Featured during the month of September at the Nyssa Public Library is the art work of David Wilson.

David attended Nyssa schools and graduated from Nyssa High School in 1970. He studied art at Southern Oregon College in Ashland during the 1970 fall term. David is presently in Taiwan where he is serving as a U. S. Navy radio operator.

On display at the library are four modernistic paintings in- contest were required to de- ployee-sponsored picnic are faceted educational experience care centers throughout Oregon that evening, will be in Heppner, cluding one which was displayed corate their dealerships crea- derived from profits made on to help these youngsters to a serving Indian, Mexican-Ame- Condon and Moro, Saturday; and at the S. having to change its routines

of nearly half a century -- rou-

artificial scarcity born of the creased orders from the Orient for more and more wheat in addition to normal exports as meaning that the region is going to have to meet this demand for soft, white wheat with greater

"This tells me," he said, "that we are at the turnaround because when the first wheat goes to the People's Republic of China from this country, it is going to be that soft, white product that they want, too, and 800 million people can eat an awful lot of noodles."

Lions To Hold Annual Sale

The Nyssa Lions Club will hold their annual Live, Inc. sale along with other Lions Clubs throughout Treasure Valley next week, Wednesday and Thursday evenings, September 13 and 14.

W.L. Mc Partland is chairman of the sale, in which all of the merchandise is made by the blind, with proceeds from the sale to carry on the Lion's sight conservation program. Brooms, mops, rugs, chimes, light bulbs and door mats will

be sold, as in past years. This annual event has always been supported generously by Nyssa residents, and members of the Lions Club ask the same support this year for a very worthy cause.
