Football and Fall are Here

Summer lasted, as it should, right up through Labor Day. And then, overnight, Autumn is here. Officially by the calendar we can usher in the fall season on September 21, but for all intents and purposes summer is past.

If Tuesday's rains haven't convinced you, a check on the practice fields at Nyssa, Adrian, and every school and college in the nation will tell you that the football season is here.

Friday night the Nyssa Bulldogs are host to the Ontario Tigers, and this game should tell a lot what both teams can expect for the new season. This will be the first meeting of the two schools in football since Ontario graduated to the Triple A League, and has played the larger teams such as Pendleton, LaGrande and Bend.

Coach Harry McGinley lost some fine players from the SRV Championship squad of a year ago, when they finished the best season in the history of Nyssa football with an 8-2 record.

He also has some fine players back for this year, and these boys have the skill and desire acquired from always having played on a winning team. They are winners, and in sports that's the most important attribute. They will give a good account of themselves, and we predict that Nyssa football fans can look forward to another winning season.

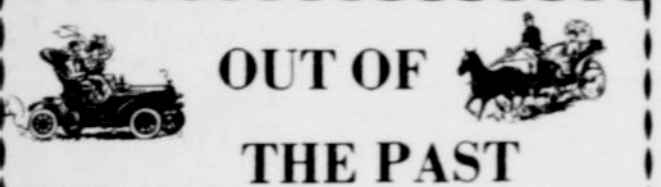

It's unfortunate that we won't be part of the Greater Oregon League in athletics this year, but the likes of Ontario, Kuna and Middleton are adequate replacements for Prineville, John Day and Burns on the schedule. And we are among the many who believe that the school board acted properly in refusing to give up our traditional rivalry with our neighbors up and down the Snake River Valley.

It wouldn't be so bad if we were only talking about varsity athletics, and then perhaps shagging all over the State of Oregon to play a varsity football and basketball schedule could be justified. That is, if the taxpayer wants to foot the bill, and doesn't mind driving 300 miles to see an out of town game.

We don't see how it could possibly be justified, though, to eliminate our close relationship with other valley schools in junior varsity athletics, junior high school athletics, band, music, speech, and all the other activities that we so ideally share with our neighbors.

Anyway, the football season starts with a bang Friday night, and we expect the stands will be filled with Ontario and Nyssa fans. Then in weekly succession comes games with Vale, Payette, Middleton, Bishop Kelly, Vallivue, Emmett, Kuna and Weiser. A very representative schedule, and if we can repeat as SRV champs it will be quite an accomplishment.

We suggest that all who can turn out and support our team, have fun, and cheer them on to another winning season.

A friendly church with a friendly smile. —Rev. David Martinez, Pastor

Editor, The Journal: Each year 80 percent of all doves in North America are eliminated, a few by the forces of nature, but by far the large majority during bird hunting carnage.

According to information from the Department of the Interior, the annual legal kill exceeds 39 million doves. The crippling losses exceeds 26 percent of the bag. This leaves over 11 million broken and pining birds to suffer days, even weeks before death sets them free.

For dormant targets, millions more are killed with arrows, slingshots, BB guns and small rifles, but never picked up. The kicks are in seeing them fall and in just ending a life while the blood bath stains our land.

As servants of the environment, a dove eats up to 10,000 noxious weed and grass seeds each day of its life. There are about 2.5 ounces of meat to each dove and they are the only birds hunted while brooding their young in the nest.

The dove has long been the emblem of innocence, purity, beauty, peace, love, hope, life and immortality. Since the baptism of Jesus, the dove has been the symbol of the Christ Spirit living on in the hearts of men.

To each admirer of animated art, doves are birds of living beauty, and their voice gives the sweetest notes this world has.
