HOW TO GET THE CLASS YOU WANT -Classes not offered in the term class schedule are most readily started in two ways. One, an interested party talks to the people he knows and gathers the nucleus of the class. Two, people call in to the Continuing Education Office to say they are interested in certain classes. When a sufficient number have called, they, in turn, are contacted for an organizational meeting. In either case, it is the interested individual who makes a class possible.
