

UNITED METHODIST CHURCH NOTES

THIS I BELIEVE

by Rev. Bob Hutchinson
This I Believe, I Believe In renewal.
Renewal is a word you hear in church circles more and more in these days.
What do we mean when we say, "I believe in renewal?"
Renewal means something different to almost every church that is seeking renewal. To some renewal is the process of up-dating their church or tearing it to the times, trimming off the dead and no longer meaningful forms of worship. To others, renewal means going back to beliefs which were once held to be important to the church and then to others renewal means claiming the Lord Jesus Christ once again to be the Lord and Savior of the Christian, drawing closer to God, becoming more Godly-minded and personally involving herself with the spreading of the Gospel of our Lord. This last meaning of renewal is the one I have chosen to believe in. The church, of course needs up-dating and if her former beliefs were more Biblical, she needs to return to them, but until the Church of Jesus Christ personally and powerfully claims Jesus as Lord and Savior, draws closer to God, becomes more Godly-minded and becomes involved in the work of spreading the Gospel throughout the world, she will never experience the renewal which God desires for her.
This I believe, I believe in renewal through the power of the Holy Spirit in our lives.

SCHOOL CLASSES

HAVE FIELD TRIP

On Friday, October 6, Mrs. Spitz's and Miss McPike's classes went to the Ontario Argus Observer and Payette Park. At the Argus Observer, we saw how they print the paper. The news comes from many different parts. They use a tape called ticker tape. They put it in a computer and it comes out in a paragraph.
They develop the pictures in the dark room. We got to go in the dark room. First they put the pictures in three different liquids, then they put them under a light to make them smaller or bigger.
The Argus Observer makes about 5,000 papers a day, and about 17,000 on Wednesday for the newspapers in the area, including the Gate City Journal.
At the Payette Park we measured the trees by their shadows, and we measured their circumference. We did some mark rubbing too.

1973 Application

For Grazing Mailed

The 1973 applications for grazing of livestock on public lands in the Vale BLM District have been sent to all licensees, George R. Gurr, district manager, said this week. These applications must be completed and returned to the Vale BLM district office by November 1.

This year 257 range users will make application to run over 100,000 head of livestock on Malheur county's public lands.
