STOP THE TAX BITE

Vote YES State Measure 9

The tax bite against Oregon homeowners grows bigger each year. Let's stop the bite. With enough YES votes we can cut property taxes about 75% statewide. With a YES vote we can force the legislature to finally do something about stopping the tax inequities and plugging up the loopholes.

For 25 years the legislature has swept tax reform under the rug. A YES vote for measure 9 will force politicians to act like responsible legislators.

During the last 10 years property taxes have more than doubled. Can we let this unfair tax burden continue to drive people from their homes? And raise rents out of sight?

A YES vote for measure 9 forces positive action in one clear cut, decisive move. Article IV of the Oregon constitution states that "revenue bills shall originate in the House of Representatives." It's time for the legislature to quit sidestepping the issue and do their job.

A YES vote for measure 9 is a positive step in the right direction.

A wheel broke off the 3-4 are days when everyone in this division of the Standard rack and the Sager youth was thrown under the other wheel.

To say that the community supper and bazaar held at the Parish Hall Tuesday evening was a grand and glorious success would be but feebly expressing the facts in the case. It was in fact figuratively speaking, a riot. The results exceeded the most sanguine expectations of the promoters and were a credit to those who had the matter in charge.

Rev. Fleming auctioned off a number of articles that had been donated. Total receipts of the evening were \$181.10. The sum will be used to purchase gymnasium equipment.
