Bulldogs Win Fifth, 63-44

The Nyssa Bulldogs broke open a close game in the second half last Friday night to win by a 63-44 score over the Fruitland Grizzlies on their court, and in doing so kept a winning streak of five games going without a defeat.

Jeff Marquez led the balanced scoring attack with 20 points, followed by Jerry Wilson with 12 points, and Pat Ross and Rod Lewis with 10 each. Ken Stewart, playing briefly because of the flu, tossed in 5. Geron Manley and Frank Moore played their usual outstanding defensive game.

Bob Turner, with 16 points, was the only player in double figures for the Pat Townsend coached Grizzly team.

The Nyssa JV team beat the Fruitland JV's 43-29 in the preliminary game.

Sportsmen Reminded To Obtain 1973 Licenses

Oregon outdoorsmen are reminded that the 1972 hunting and fishing licenses expire December 31 and new 1973 documents are needed by all persons taking to the out-of-doors to hunt or fish beginning January 1.

Shipment of 1973 hunting and fishing licenses to dealers is now in progress by the Game Commission and is expected to be complete to all agents by December 15.

Steelhead fishermen are the main group of sportsmen affected by the new license requirement since the winter season for these big fish is now in full swing and will continue until spring. Anglers should obtain the new document well in advance if they plan to fish on New Year's Day, January 1.

Others affected early in January are bow and arrow hunters intending to participate in the Roosevelt elk archery season scheduled through January and for 100 archers holding permits for the Indian Creek elk area in Union County. The only scheduled season for rifle hunters is the Troy Elk Season extending through January and open to 250 permit holders. Waterfowl and chukar and quail hunters should also remember to outfit themselves with a new license.

Outdoorsmen are reminded that a hunting license is required to hunt for any animal of the state. This includes the game species as well as rabbits, coyotes, and other non-protected animals.

CHRISTMAS LIGHTING at the S. P. Bybee home on Columbia Avenue west of Clark Boulevard attracts many visitors each year. Nearby is the beautifully lighted home and yard of Anna Tensen, which features hundreds of colored lights on the house, out-buildings and shrubbery.

Bulldogs Lose To Vale, 49-37

Vale brought Nyssa's winning streak to an end Tuesday on the Vikings home court before a packed crowd, which included many from Nyssa. This made up for an earlier loss to the Bulldogs, and the two top teams in the valley as of this date, now stand Vale 6-1 and Nyssa 5-1.

The game was a defensive battle throughout, and a cold Nyssa team just could not hit the hoop in the first half, scoring only 4 points in the first quarter. They had a total of 11 at half-time to Vale's 24. The Bulldogs outscored Vale in the second half by one point, but wound up on the short end of the 49-37 score as they could not score consistently.

Rod Lewis was high for Nyssa with 13, followed by Jeff Marquez with 10. In a near identical situation Tracy Hawk scored 14 for Vale, followed by Bill Moore with 10. Only 11 fouls were whistled against each team, but Nyssa coach Gerald Talbot drew a technical for questioning an out-of-bounds decision too strenuously.

Nyssa - Lewis 13, Wilson 7, Marquez 10, Ross 5, Stewart 2.

Vale - Hawk 14, Moore 10, Hall 9, Schluppe 6, Watson 4, Camman 4, Nelson 2.

Game Commission Completes Fish Release

The Oregon Game Commission has completed the 1972 fish liberation season in Malheur and Harney counties. This year, 67,000 legal rainbow trout, 942,950 fingerling rainbow and cutthroat trout and 28,364 warm-water game fish of six different species were released in the waters of the counties.

The fall gillnet inventories of the lakes and reservoirs in southeastern Oregon showed excellent survival of the fingerling trout. These fish will provide the bulk of the trout available to the anglers in 1973. Antelope Reservoir, near Jordan Valley, developed a serious leak this fall and is presently about 30 or 40 surface acres. The maximum depth is only about seven feet. It is very possible Antelope Reservoir will winter kill if more snow covers the ice and cuts down light penetration. Without light, algae and decaying organic material will consume more oxygen than is produced. Thus, if the oxygen levels drop below five parts per million, fish life cannot be maintained. Because of the low water levels at Antelope Reservoir, the fish are concentrated and should provide some excellent ice fishing.

Adrian Beats Harper 67-52

The Adrian Antelopes beat Harper 67-52 Friday night for their third win of the season against only one defeat.

Dennis Beebe with 20 points and Stuart Ward with 17 led the Adrian attack, with the latter playing only part of the game because of foul trouble.

Adrian - Beebe 20, Condra 8, Evans 8, Ward 17, Piercy 2, Mackenzie 2, Fujishin 4, Bishop 2, Grau 2, Nolan 2.

Harper - Bertalotto 11, Shira 6, Coleman 6, Haueter 9, Bradford 13, Mooney 7.

OUT OF THE PAST

10 YEARS AGO

Grant Rinehart was unanimously selected as council chairman and mayor of Nyssa for the 1963-64 term at the regular monthly meeting Dec. 11.

He has served in this capacity the previous four years and at the end of this term will have been active in city government for a total of 14 years.

20 YEARS AGO

High winds Sunday did minor damages to property in the Nyssa area, including about \$400 damage to the roof of the Gem Produce Co., allowing rain to leak in and damage the walls and ceiling. It was reported that a partially built wall on a concrete block house on Arcadia was damaged and a transformer near the Dessert Seed Company was shorted out to leave the firm without power for machinery.

In the Nu Acres section the roof of a metal granary was torn from the rest of the structure and traffic on Idaho

30 YEARS AGO

A petition asking for discontinuance of the parallel parking system for automobiles in Nyssa was filed with the city council at its monthly meeting Monday night of this week.

The petitioners asked that the city "discontinue parallel parking and go back to the old system for the reason that we believe the parallel parking system is wasteful of gas and rubber. You cannot park as many cars within a block by the parallel parking system and we know that it is very aggravating to one in these trying times."

Parallel parking was established in Nyssa this month in accordance with an ordinance passed by the city council.

The council has taken the proposal under advisement.

40 YEARS AGO

The icy fingers of Old Man Winter held Nyssa and the entire

50 YEARS AGO

Sixteen members of the Nyssa Volunteer Fire Department held the annual meeting of this organization Monday evening and celebrated the occasion with a big roast duck dinner. The ducks had been captured the day before by a hunting party and as the hunt was very successful the boys had a whole roast duck apiece, which they proceeded to devour to the last scrap. The banquet was served at the Silver Grill.

DECEMBER 22 - Christmas vacation begins at 2 p.m. School resumes, January 2, 1973.

DECEMBER 28-29 - Basketball Christmas tournament at Joseph, Oregon.

ELK HUNTERS ASKED TO RETURN CARDS

Oregon elk hunters are urged to dig down in their wallets for the elk hunter's report card, answer the several questions, sign the card, and return it to the Game Commission. The card is self-addressed and no postage is needed.

Nimrods will be making an important contribution to help determine the elk harvest for 1972 by the return of these cards. Although the cards are not used to compute total harvest (this is accomplished by a questionnaire survey of 20,000 hunters), they are used to prorate the take of elk by game management units and special hunting areas. The more cards returned, the more accurate is this determination.

The report card is issued with each elk tag.
