TERRY L. HART & MAX CHAVEZ
has a job that will pay you more than \$340 a month (after four months)

Probably a lot more than you could earn in a run-of-the-mill job when you think that that \$340 is just spending money... when you don't have to pay for food, housing, medical or dental bills... when you get some of the best job training in the world free... when you can travel to places like Hawaii and the Caribbean.

Navy money's pretty good. So are the jobs and the travel and even the food. The Navy's got a lot of new programs that can help you go places inside the Navy, and when you get out. Like the new three-year enlistment. Like the join-now, report-up-to-six-months-later program. Like the Naval Reserve two-year active duty plan.

If the Navy sounds like a place you'd like to be when you get out of high school, call or see **TERRY L. HART, STI, USN & MAX CHAVEZ**
