JUNE IS DAIRY MONTH

M&W SALUTES THE DAIRY INDUSTRY!

JUNE IS DAIRY MONTH
M&W Markets salute the Idaho dairy industry. The dairy business in Idaho is big business and it's a vital part of Idaho's economy as evidenced by the following: Idaho has 6,000 dairymen, has 160,000 milk cows valued at \$75 million, produces 174 million gallons of milk yearly, has cash dairy farm income of \$76 million or 11% of total farm income, is the third leading producer of milk in the West, manufactures 25 million pounds of butter — over \$14 million, is the second largest butter manufac-

turing state in the West, is the seventh largest cheese manufacturing state in the U.S. with 60 million pounds, over \$36 million, and produces 40.3 million pounds of non-fat dry milk each year or over \$3 million.
At M&W Markets, we're proud to be selling Idaho's own high quality local dairy products to our shoppers. Try some of our in-store dairy specials this week and help us celebrate Dairy Month in Idaho!
