

Highlights of Biblical European Tour by Gertye Jones of Adrian

Mrs. Gertye Jones of Adrian returned recently from a 17-day tour in European countries traveling by plane. First stop was Copenhagen, Denmark. They toured the Tivoli Gardens in the evening. The tulips were in full bloom and the fountains under electric lights were most impressive. Admission was less than \$1. and included music by a symphony orchestra, a modern band also played and there was opera, theaters, and carnivals with different kinds of rides.

The next stop was Rome, Italy where they visited the Borghese Garden which is situated in the Princian Hills. They visited Pantheon, the best preserved temple of Rome, Antiquity, the Colosseums and the Roman Forum. They went through the early Christian Martyrdom and Manerime prison, possibly where Paul was confined before his execution. They visited St. Peter's Cathedral and saw all the fountains at night.

In Athens, Greece they saw the Olympic Stadium and the Temple of the Jews, to the Hadrian Arch built on the boundary of the Greek and Roman Cities. They saw the "Acropolis", the sacred hill for the ancient Athens, and the Propylea, the big gate to the Parthenon. Visited Mars Hill, where the Apostle Paul made his famous speech to the unknown God. From there they went on to Corinth as Paul did in the Scripture reading they visited the old and new Corinth which was built after the 1938 earthquake. They saw Agora, the market place in old Corinth, seven columns of the Great Temple of Opalio, the Bema seat where Paul stood in judgement. Excavating is still going on

there. There were many headless statues, the heads hanging around different places on the ceiling. The rulers were Gods, a new ruler, a new head put on the statue. A small canal called "Isthmus of Corinth" was observed. It was built from 1882 to 1893. It is four miles long and 75 feet wide. It is 240 feet at the highest point. An average ship can go through there and it saves 192 miles.

They visited the Egyptian Museum in Cairo, Egypt. They saw many of the famous mummies, King Tut and his family and many others. There were between 50 and 100 in the group. They visited the Pyramids via camels. Inside one of the Pyramids they saw King Tut's burial tomb and his possessions.

In Cairo they visited the Greek Orthodox Church. They took a sail boat ride on the River Nile. They visited Nasser's Tomb, a large shrine building on the way to the airport.

They flew to Beirut, Lebanon by way of Cyprus because the countries were at war with each other. This had the most severe security customs. Lebanon was the most like the United States of all the countries toured Mrs. Jones said. Probably due to the Marshall Plan. They were also the most friendly.

By bus they drove through "Balath of the Bible" famous 13 hundred years before Christ. It was one of the breadbaskets of the Roman Empire. The "Tree of Lebanon" is a cypress tree, which is 150 years old before it produces cones, then only once in three years.

The tour included a visit to Byblos, where the name Bible comes from. It is the oldest continuously inhabited town in the world, dating back to the

year 3200 before B.C. Four days was spent in Jerusalem. The "Garden of Gethsemane" is a most beautifully kept garden, at its edge they saw the "Skull" where Jesus was crucified. They had a special communion in the "Upper Room". The Beatitudes on the Sermon on the Mount were read as they stood on the mountain. They ate Peter's fish at the restaurant on the Sea of Galilee before crossing to the Capernaum where Jesus stayed at Peter's house. The group waded in the Dead Sea and saw the cave where the Dead Sea Scrolls were found.

Mrs. Jones brought many interesting articles home with her which included jewelry, pictures, etc., which she is kindly sharing with friends.
