

OUT OF THE PAST

10 YEARS AGO

There are members of five generations on both sides of the family of Dwight Smith and his wife Gertrude Ray Smith. They are Mrs. Nora Ray, 84, who has resided in the Nyssa area since she was 12 years of age, she came here with her parents by wagon train from Missouri; her daughter, Mrs. Dwight (Gertrude) Smith, her son, John J. Smith, his daughter, Shirley Jo and her son Todd Jay, two months old.

Five generations on the Smith side of the family are Mrs. Ella Smith, 96, who has been a patient for the past nine years in the nursing home wing at Malheur Memorial Hospital. She came to Nyssa in 1915 from Iowa. Her son, Dwight, came to Nyssa in 1914. Also, John J. Smith, his daughter, Shirley Jo, and her son Todd Jay.

20 YEARS AGO

Harold Robert Loe, Jr., 16-month-old son of Mr. and Mrs. Harold Loe, was drowned Saturday afternoon when he fell in an irrigation ditch at the family home three and one-half miles northwest of Nyssa.

According to information received, the family had just returned from Nyssa and the child was left asleep in the car. It is believed the youngster awakened to walk to the house and fell in the irrigation ditch near where the car was parked.

Ex-Nebraskans chose what turned out to be the hottest day for several years, when they had their annual Nebraska picnic Sunday at the Nyssa park. The heat was blamed for a somewhat smaller attendance than that of past years but many residents of the lower Snake River Valley gathered for the picnic dinner, entertainment and a brief business meeting.

Mrs. J. L. Church escaped injury, with the exception of burns on the left arm, when a jar of cherries exploded in her kitchen last week while she was canning.

Mrs. Church had just taken the coffee jar filled with cherries from the oven when the explosion occurred. As the cherry juice bubbled in the jar, she tightened the lid and the jar burst, sending the lid against the ceiling and throwing fruit and glass into the living room and dining room.

The jar lid tore a hole in the plaster when it hit the ceiling.

T. E. Connolly Company of San Francisco has completed the installation of the huge control gates at entrance of Tunnel No. 1 through which waters from Owyhee reservoir will be diverted. Buildings at the camp headquarters of the Connolly Company the past three years have been sold to local people last Friday. Wm. Connolly, superintendent of the work here, left for his home in San Francisco.

Installation of the gates was the second contract on the Owyhee completed by the Connolly Company. The first was construction of half the 3 1/2 mile Tunnel No. 1, a two-year job. When Connolly told Nyssa friends goodbye Friday, he stated that he was planning a trip

Has the famed "mother lode" of Malheur City mines been found at last?

Is the once fabulously rich district of the early sixties to come back into fame and wealth again?

There are those in Malheur City who answer yes to both questions and base their beliefs upon the rich quartz find made a few days ago in the old Red, White and Blue Mine.

"We believe that the Malheur mines are going to come back into their one-time fame, and that Malheur City will be one of the boom towns of Oregon within a short time," said W. N. Worsham.

A new Seipps Booth car appeared on the streets this week under the able guidance of its new owner, Cliff Tillman.

A deep well is being drilled on the Miles Cannon property north of this city, recently acquired by Mr. Cannon and consisting of 70 acres all in Italian prunes from which the major part of \$40,000 will be derived as the income for the year.

The Cannon ranch was part of the famous Idanha ranch from which shipments of 60 carloads of prunes was made to eastern parts last year while owned in its entirety by W. U. Sanders of Nyssa. L. E. Wilson has the contract for the well.

That Nyssa fruitgrowers will receive a good price for their product this year seems extremely probable. Partial crop failures in the East have turned the attention of dealers this way and indications are that Western fruit growers will profit by the misfortune of the East and the middle West.

Editor, The Journal: Our 27th Annual Japan Nite Obon Festival is now history. It was no doubt the BEST EVER. We must have had 3000 or more people attending the festivities. We had visitors from several foreign countries. We had people who made a special trip from Mount Angel, Oregon and Ogden, Utah. Several came from Boise and stayed overnight. I understand that all restaurants were crowded on Saturday night, which indicates that though we sell food, we brought a lot of people to town who spent money here other than at the festival.

Without the support of people like you, it would not have been possible to have such a successful event. Because people enjoy the occasion, we pledge to continue the event each year, with an emphasis on improving in any way that we can.

Thank you so much for your help and support, we shall count on your support again next year. Sincerely, Idaho Oregon Buddhist Temple George Iseri Publicity Committee Japan Nite Obon Festival
