Oregon Veterans Entitled To Educational Aid

Oregon veterans attending school this fall may be entitled to State veterans' educational aid benefits to help pay the cost of their tuition, the Department of Veterans' Affairs said today.

H. C. Saalfeld, veterans' affairs director, said the State benefit pays \$50 for each month full-time undergraduate college studies, and up to \$35 a month for other studies, based on one month's entitlement for each month of military service to a maximum of 36 months.

Entitled are Korean veterans, and veterans of service after July 1, 1958, who received the Armed Forces Expeditionary Medal or the Vietnam Service Medal for service in overseas trouble spots and combat areas.

They must have been Oregon residents for one year immediately prior to their service, and they must be Oregon residents when they apply for the benefit. There is no application deadline.

World War II veterans who drew State educational aid before June 30, 1959, may continue in the same studies if they haven't exhausted their benefits.

State aid is not available for courses for which the veteran is receiving federal GI training benefits, Saalfeld said. However, a course not associated with federal benefits may qualify for the State program even if taken concurrently.

Application may be filed with the school registrar, through a county service officer, or with the Department of Veterans' Affairs in Salem.
