

MRS. BOB WILSON, HOSPITAL AUXILIARY PRESIDENT, is pictured with Nellie Staples, a resident of Malheur Memorial Nursing Home. Mrs. Staples is displaying one of the lap robes made by Auxiliary members.

The attractive lap robes are made from squares of polyester remnants and are also used as coverlets for the beds. To date six robes are completed and the goal is one for each resident in the nursing home. Anyone wishing to donate scraps of polyester that will measure four inches square or larger may do so by contacting Mrs. Wilson, a hospital Auxiliary member, or by leaving remnants at Wilson's Department Store.

Mrs. Hirsch, day supervisor said "The lap robes are so popular, residents fortunate enough to have one won't part with it." At the present time, there are 36 residents at the nursing home.

Auxiliary members also made six dozen large terry cloth bibs and many more are needed. Any donations of terry cloth in one to three-yard lengths will be greatly appreciated.

The annual Christmas party and visit from Santa Claus will be Wednesday, December 19. Local organizations will again be asked to participate by helping with the gifts. They will be contacted early in December by an Auxiliary member.

**Jensens Return From Texas Visit**

Mr. and Mrs. Clayton Jensen returned Friday, November 9, after spending ten weeks visiting with Mr. and Mrs. Nich DeJonge and family in Houston, Texas.

**Safety Brush-Up Urged For Hunters of Game**

The Annie Oakley's and Daniel Boone's of the game hunting fraternity have the opportunity to review safety measures for the hunting season.

The National Rifle Association, Washington, D. C. has introduced an entirely new package of hunter safety and conservation training materials. The new series covers the hunter's responsibility to safety practices, role in conservation, sound game management, traditional hunting ethics and hunter-landowner relationships.

In addition to the instructor's manual, supplements are available to the instructor who wishes to train students in related areas. These include: howhunting, survival, wilderness first aid, blackpowder and muzzleloading, vision and the hunter, and field care of game.

**Amalgamated Sugar.**  
**From beets to White Satin.**

BANK MANAGER ROD GEORGE AND NYSSA DISTRICT MANAGER GILBERT WELLS OF AMALGAMATED SUGAR

Nyssa and its surrounding farmlands have the unique ability to produce thousands of tons of sugar beets annually. The kind of beets from which quality White Satin sugars are manufactured right here in Nyssa.

Amalgamated Sugar Company, the largest single industry in Nyssa, employs some 300 people in its local factory. All types of sugar are manufactured, as well as large quantities of beet pulp and molasses, both valuable by-products of the refining process.

With a slicing capacity of 6500 tons per day, the mill will slice 785,000 tons of beets this year alone. Approximately 500 local farmers grow the beets on a total of nearly 30,000 acres of land. All these beets add up to 2,041,000 hundred pound bags of sugar, refined annually.

At First National in Nyssa we'd like to salute the folks at Amalgamated Sugar for the role they play in the continuing growth and prosperity of our community. With their help and the help of our local farmers, beets grown in Nyssa travel to cities around the country as high quality White Satin sugars. And that's something to be proud of.
