# School Board, Bob Smith Unite, But No Honeymoon

By Merlin Mann

Nyssa, meet Bob Smith. That was the tune of the Nyssa School Board special meeting Monday night. The school board and some members of the Budget Board and the School Building Advisory Committee met with Bob Smith, who as architect will supervise the reconstruction of a Nyssa High School complex.

Smith is a partner in the architect firm of Smith and Martin Hasegawa of Ontario. They were approved by the board last week.

But after the official joining of Smith and the board Monday night there was no honeymoon. Not even

# **County Fair Premium Books Now Available**

1974 Malheur County Fair, August 14-17, are now being distributed according to Guy Sparks, Vice-Chairman of the Board.

The book has been revised this year, and Sparks urged everyone to note the changes. All rules for the various divisions have been grouped together, as well as all special awards have been put in a separate section.

Sparks noted that a map showing main buildings and parking areas as well as parking information is listed on Pages 5 and 6. He said that improper parking has caused the Board to lose

### Martha Heider Earns Straight-As

Names of local students who made the scholastic honor roll spring term have been announced by Oregon State University.

A total of 599 students earned straight-A's. Another 1.585 earned a B- plus (3.5) or better to make the honor listing. To be on the honor Geast 12 graded hours of

course work Local students on the honor roll included from Nyssa: Martha Heider, a junior in Science, with straight-A marks; James Davis, a freshman in Engineering: Esther Hori, a senior in Science; Jack Olsen, a freshmen in Engineering; and Barbara Wilt, a senior in

to business and sparred for two hours on what, why, how and where the reconstruction should take place. Certainly no decision is yet close on the exact location of a new school, but two items were directed at Smith to check into before the board would again meet with him next Monday night in the superintendent's office in the primary school building near the burned out high school.

The board asked Smith to determine if there was converted into the enough room north of the old elementary school gym between the gym and the street to build a new gym this summer. It would serve as a multi-purpose room for all schools next year and then be

Smith to determine the feasibility of remodeling the bus garage into a vocational ag building for the coming

After much discussion and varied opinions on where the actual complex should be located and what features included, the board got down to other business. Superintendent W.L. MacPartland

an additional industrial arts instructor. The move reversed the boards earlier feeling that an instructor not be hired and the building trades program be dropped for a year.

The decision came after junior and senior high principals Dan Martin nd Gene Chester presented uments showing that by not filling the position left open by the resignation of Ron Oakes, it would force the elimination of more programs than just the building trades program. The entire junior high shop program and high school electronics class also would be forced out, they The board also gave

proceed with the purchase of band uniforms. The board, however, reacting to a sizable price increase, advised Mac-Partland to check with the insurance company to det ermine if the additional cost of the uniforms now would also be covered. Mac-Partland said he talked with insurance company spokesman Tuesday morning and he indicated the entire cost of replacement was

covered in the school policy

The pouring of concrete for the four-foot high foundation ring wall is shown here as work continues in the readying of Airport Hill for a three-million gallon water storage tank. The new water tank, expected to be completed by August 1975, will increase Nyssa's water storage capacity by 20 times the existing capacity. Nyssa is able to hold 150,000 gallons now.

When the new tank is completed the existing 50,000 gallon storage tank, which began operation in 1918, will cease operation. A booster station will be installed at the base of Airport Hill to send the water across the Snake River and into

existing Nyssa water lines. Construction is being handled by Ray Kenney of Ontario.

# Local Registrars Appointed For Selective Service

Service Board No. 22 has been moved from Ontario to LaGrande, effective June 28, according to Col. Leonard G. Hicks, State Director.

Young men must still to exhibit as a unit. Sparks register with Selective Service upon reaching their 18th birthday. In order that Matheur County young men

Photography, and Principles of Economics showed good enrollments with room vet remaining for more students. Auto Maintenance and Safety, a course primarily for women, was a popular offering in the Continuing Education area.

Three courses were can celled due to conflicts or lack of interested students. Conversational French and Field Archeology showed a shortage of students and a scheduling problem forced the cancellation of golf. Registration may be com-

pleted at the college's Student Affairs office.

### Reporting Deadline Near

Paul Bunch, Chairman of the Malheur County Agricultural Stabilization and Conservation Committee, reminds farmers with wheat and feed grain allotments of a July 1 deadline reporting

Signup is especially important this year to report acreages and preserve allotment history. Complying with program regulations is very simple for the 1974 program. There are no acreage restrictions and there are many substitute crops to preserve allotments for those not raising grain this year.

In addition, Bunch said program participation pro vides loan eligibility on the crop as well as for storage facilities. Other provisions include benefits for loss or damage of the crop due to natural causes.

Bunch stated that all farmers with allotments should be sure to signup. The benefits can be very important to farming operations 6/26/73 640,830 Acre Feet this year.

## Show Me Tour Set For Bill Bugs Are Monday,

Problem

He says the small weevil like insects lay eggs that hatch out into small white larvae that eat the grass stems off near the survace of the ground. The small grubs can be found in dead appearing areas of the lawn. The mature larvae are about three eighths of an inch long and have a brown head. They can be found curled up below the soil surface in infested areas.

An insecticide call Diazinon has been effective in controlling the pests. The material should be applied according to the label and watered in soon after application.

# TVCC Art Class

The art department at Treasure Valley Community College is sponsoring a pre-school art class to be taught on Tuesdays and Thursdays from 10 a.m. to 11:30 a.m., in room V-5 of the Lease Building. The popular class will be taught by Mrs. Kathy Kulm and will provide many different kinds of art experiences for the young students.

The class will have a limited enrollment and will carry a \$20 fee to cover the cost of instruction and materials.

### M.I.B. Accepts Janet Dail

complishments in cereal crop lems of food production for

The "Show Me" July 1 offers local people an opportunity to see behind the scenes some of the exciting things yet to come in agricultures future.

the future.

Neil Hoffman, Superintendent of the Malheur Experiment Station, emphasized that the day has been planned for anyone interested in what goes on in the complicated field of agricultural research. Times of visitation are 9-11 a.m.; 12 noon; and 7-9 p.m.

Dr. Warren Kronstad, OSU Scientist known world wide for his efforts in wheat breeding achievements will be at the station during all sessions, according to Superintendent Hoffman. Kronstad, known for his acproduction, has spent considerable time in Turkey and other countries in an effort to aid those areas in cereal crop production, thus benefiting the future food needs of people

The 350 different crop varieties on trial at the station will be evaluated carefully and those that meet the criteria established, will be evaluated further.

The 107 potato and 60 varieties of onions on test may find a superior producer and quality processor all essential in todays production needs, Hoffman stated. The scientest went on to say that research is essential today and tomorrow if American agriculture is to meet the challenges of tomorrow-when consideration is given to our social and economic needs of the future. Anyone desiring further information should contact the County Extension Office.

NANCY ROSS

Two Nyssa Girls are among the nine candidates for the Miss Malheur County contest tonight at the Ontario High School Auditorium. One of the nine will replace Shan Moss of Nyssa, the current Miss Malheur County

Leann Bair, 18, is the daughter of Mr. and Mrs. Cecil Bair and a 1973 graduate of Nyssa High School. She has completed her first year at Ricks College.

Nancy Ross, 19, is the daughter of Dr. and Mrs. B. E. Ross and also a 1973 NHS grad. She is a student at the University

Leann will demonstrate her art ability and Nancy will play a flute solo as their talent presentations in the pageant.
