Now, how do you tell them about money?

One of these days, a little person is going to crawl up on your lap and ask you about money. And you'll have a lot of explaining to do. Because as children grow up, they not only need to be taught the value of a dollar, they have to learn how to manage it. How to spend, save and borrow wisely.

Our free booklet can help.

To help you get them off on the right foot, we prepared a small book. It's called "The ABC's of Money." It explains things about money like interest and security in a way children can understand. And it's available free at every branch of First National. At First National we're making sure our customers get the most out of every dollar they earn. Even if it's their very first dollar.

FIRST NATIONAL BANK OF OREGON
We'd like to get to know you.
