

Out Of The Past

10 YEARS AGO

Joe Bellon an Amalgamated Sugar Company employee who came to Nyssa in October 1941 from Denver, Colorado, retired from the company on March 31 of this year.

His first job at the Nyssa plant was to get a newly constructed pulp dryer into

operation.

Many of their friends have asked the Bellons about their immediate plans. Their reply has been that they plan to visit with their sons and families in California and for the first time will see a new grandson, Jerry Todd Bellon, who was born March 19 to Gene and Paula Bellon.

Sage of Nu Acres

By Lyn Dohner

The Bill Haley residence, near Fruitland, south of Palisades Corner, burnt to the ground early Sunday morning. The family, Mr. and Mrs. Haley and sons, Brian, age three and Justin, age 14 months, awakened in time to dress and make a hasty exit. Their dog, who slept in the house, is still missing.

The Haleys are presently staying with Mrs. Haley's parents, Mr. and Mrs. Jim Goff of Payette. Their most pressing need at the moment is for a size six-year-old crib, should any of you have an unused one. Incidentally, the fire is believed to have started from sparks on the roof.

Well, the old cat isn't so fat today. She gave birth to six kittens Saturday. George is being pressured to make five of them disappear, sparing the yellow one. He hates the idea. I couldn't do it either.

A pot-luck dinner, followed by an election will be held by the Farmerette Club at the Community Hall Wednesday. There will be a plant exchange.

Probably, as usual, Mrs. Ben Payne, Mrs. Bob Shaw and I will go over the Hall in advance to spiffy it up a bit. We each take a mop bucket and mop and sometimes some floor wax, and really make it shine. It's kind of fun and gives us a little exercise and a big sense of accomplishment. Doesn't take much to make some people happy, huh? Don't some of you younger gals want to take on the job? We'd gladly bow out!

George is getting ready to put up electric fence for those calves. Last Friday they got out and went down to the George Wilsons and refused to come home. Maybe those nice big milk cows reminded them of their mothers. They never were reconciled to losing them. Anyhow, they had to be carted home in a truck. Now they stay close to the house and bawl a lot.

The George Wilsons have a most congenial young man working with them these days, name of David Suiter. He is the one who helped George bring our calves back and then looked over the place and remarked it might be right pretty here when the leaves come out. Said he guessed he'd be back with his camera and take pictures. Sunday night Mr. and Mrs. Syl Woodland of Arena Valley visited Mr. and Mrs. Ben Payne. They (Woodlands) had just returned from a trip to Everett, Washington, where they had visited Mrs. Woodland's sister, and had come down the coast to Eureka and on east to home. They said there were bad snow storms in the north and lots of rain on the coast and they were grateful to return to the "banana belt."

Dinner guest recently in the Ben Payne home was Mr. Mike Mikesell.

Randy Weaver came by and sold us tickets to the annual 4-H dinner of the Nu Acres youngsters, to be held at the Community Hall Saturday, April 19, from six to nine, ALL YOU CAN EAT!

This is a money-making project to help pay one-half of everyone's way to 4-H camp this summer. The cost is \$1.50 for adults, \$1. for children under twelve, \$6. per family and children under six, free.

The food will be sloppy joes, salads and pie.

Special event of the evening will be the raffling off of a quilt the 4-H girls have been making for this purpose. Raffle tickets will be .50 cents or three for \$1.00. They will be sold at the dinner that night.

Town and Country Garden Club met last Thursday at the home of Mrs. Dorothy Nolen, and learned all about lawn care from a report by Mrs. John Stam.

The question came up as to the responsibility of everyone in town to keep clean the alley back of his home. Guess who has the worst looking alley in the whole town? They said, but I'll never tell!

Saturday all the areas garden clubs will gather for their annual luncheon to be held at noon in the Fellowship Hall of the Methodist Church.

Mr. and Mrs. Pheral Dodson have opened up their home for special leadership training meetings for Christian teachers and ministers. They are led by Dick Sorenson, minister and psychologist of Nampa, and held on Saturday nights, 7:30 to 9. Attendance the past two weeks has been fifteen to twenty people and the teaching is fantastically good.

Water through the tunnel! The first water to go through the tunnel onto the new project will start its journey Friday morning of this week, according to R.J. Newell,

project engineer, which marks an event waited for many years. Water has been rising in the dam at rate of over three feet a day for the past three days, the exact figure being 3.85. Thursday morning the water was approximately one foot from the tunnel mouth with the water expected to hit the tunnel mouth by four o'clock today. From 9,000 to 10,000 feet of water is running into the dam as the spring run-off started in the snow covered mountains. The water in the dam has raised over 18 feet in the past seven days.
