

LEGISLATIVE REPORT

By Rep. D.E. (Denny) Jones

Well, we're winding up our 15th week here at the Legislature today. The big issue with me this past week has been the Owyhee River Bill, HB 2703, which is an attempt to include the rest of the Owyhee River in the Scenic Rivers system.

The part of the Owyhee River included in the Scenic Rivers system prior to the 1973 session is an area between Crooked Creek and Birch Creek and also an area from Three Forks south to the Oregon-Idaho line. HB 2703 would add to the Scenic Rivers system a short stretch between Oriano Springs Creek and Birch Creek, and also a strip some 30 miles plus, from Crooked Creek south to Three Forks. Included in this last-mentioned area is an eight mile strip from Owyhee Springs downriver to the mouth of Crooked Creek. This includes Rome and several ranches owned by about twelve people there and would do more harm than good because it would restrict these people so they wouldn't be able to do anything new to their ranches without permission. They couldn't build any new buildings, roads, pump houses, etc., nor could they change any of their farming practices without permission of the State Transportation Department.

I have worked hard on this bill and finally did get it defeated on the floor of the House, with the help of many of my colleagues. When it first appeared on the House floor, HB 2703 passed. We were successful in getting the vote reconsidered, and the bill was returned to the Environment and Energy Committee. I attempted in committee to have the eight miles of ranches amended out, but the majority of the committee, four members, voted down my amendment and passed the bill out just the way it was before. This time supporters of the bill were able to muster only 30 ayes, and it takes 31 votes to pass a bill. So this was a battle won for Eastern Oregon. There aren't too many victories this session for minority party-Eastern Oregon legislators in this urban-liberal-oriented Legislature. The bill should be considered dead for this session. I suppose the same idea could be amended into another bill, but I think it probably would have a hard time if it were revived.

HB 2185, the fluoridation of water bill, was back on the floor again. There was a big

fight last session over it, and we had it once before, this session. It was sent back to committee, and the reason for sending it back to committee was to change the voting procedure and allow the general public to vote in fluoridation of their water supply if they wanted to. However, the committee didn't do that—they just provided that the governing body of a city or county may require a petition to put it on the ballot. Many people were opposed to this, and 2185 failed by a final vote of 27 to 33. So the fluoridation issue is dead for this session, I would say.

HB 2288, a sex discrimination bill, prohibits discrimination in hiring or firing because of sex, marital status or sexual orientation against an applicant for state employment or a present state employee. This bill failed on the first vote, then the vote was reconsidered and the bill was sent back to committee. It will be back on the floor for a vote on Monday.

HB 2319 would require annual increases or decreases in the campaign spending limitations proportionate to increases or decreases in the Portland Metropolitan Area consumer Price Index. I thought this was a good bill and voted for it, but it failed.

HB 3219 modifies the speed law and changes the type of citation that might be issued by an officer as to what would appear on your record. I think this is a real good bill. The original bill was to change the 55 mile per hour speed limit. However, we ran into problems with that because we might lose much of our Federal highway funding if we went against the Federal law, so it was amended with the idea that the present law pertains to energy saving and not exclusively safety.

So, if you're caught for speeding now on a clear day, on a road where the visibility is good and a safety factor is not involved, then you would be given a ticket for violating the fuel conservation part of the law and not the traffic safety part. This, then, would not go against your safe driving record. I think this is a real improvement over our 55 mile per hour speed limit we are operating under today. This bill passed the House in good shape and should pass the Senate I would guess.

This week's news report seems to be running longer than usual—I still have several pages of bill news—so I'll stop here and save the rest of this week's report to send you next week.

Launching

Boat launching—quick and easy! Waiting lines at boat launching areas would be eliminated or reduced if every boater made a habit of launching and retrieving his craft quickly.

Here are some tips from the Johnson Outboards News Bureau:

LAUNCHING

1. Prior to backing into water make sure plug is in boat and restraining lines are free. Load all gear on boat.

2. Station an assistant in the boat or on a pier to back boat off the trailer.

3. Quickly remove car and trailer from the area and make room for the next boat.

RETRIEVING

1. Position trailer with rear rollers submerged.

2. Have a friend drive boat onto trailer. You can guide him up with hand signals. Lock bow ring to trailer.

3. Pull the boat up away from the launch area and secure boat to trailer.
