HELP WE CAN DO WITHOUT!

IS THIS SOMETHING WE NEED?

A recent survey of American consumers by the Opinion Research Corporation indicates that 75 per cent favor improving existing Federal consumer protection agencies. Only 13 per cent favor creating a new one. Nevertheless, legislation before the Senate would authorize \$60 million to create an Agency for Consumer Advocacy (ACA) and operate it for three years.

Already we have the Office of Consumer Affairs, the Consumer Product Safety Commission, the Federal Trade Commission and some 80 others all working for consumers. What could the ACA do in addition?

For one, it can raise the prices of consumer goods by imposing new costs on industries and companies. Americans are only now realizing that over-regulation of business is a prime cause of inflation and unemployment.

At the same time, the ACA could create chaos because it will have legal authority to oppose and litigate decisions of other government agencies.

Why doesn't Congress insist that the many existing consumer agencies improve their performance instead of spending money on a new one?

LETTERS TO THE EDITOR

Editor, The Journal:

It is with deep interest and respect that I listen to and read of the efforts of Mr. Elmo Orr, a Boise City Councilman. He is truly a representative of the people of Boise, and I admire his tireless efforts, through the news media, to inform the people of the happenings within the City Council and the City of Boise. Although many of his endeavors fall on deaf ears and closed eyes and are rejected by those in power, he remains unafraid to work for the best interests of his people. His open letter to the President and Congress of the United States is a masterpiece and should be read and understood by all.

It is very unfortunate that the citizens of Nyssa do not have a person, serving on the City Council or the School Board, with his wisdom, his foresight, who exerts the qualities of this man. It is deplorable that we do not have an elected or appointed official who is willing to place the good of the people above that of their private egos and personal interests. It is a disaster and a disgrace to the social security recipients, the elderly, the unfortunate, the minorities, and the taxpayers Jack Anderson Nyssa

Editor, The Journal:

When one thinks of these people that are trying to take guns away from honest citizens, and now trying to ban ammunition as a dangerous substance, also the Congress that gave us E.P.A., O.S.H.A., and too many other agencies to even list the many of the bureaus in government, one cannot help but think of what Henry Grady Weaver wrote in his book, *The Mainspring of Human Progress*: "Most of the major ills of the world have been caused by well-meaning people who ignored the principle of individual freedom, except as applied to themselves, and who were obsessed with fanatical zeal to improve the lot of mankind-in-the-mass, through some pet formula of their own....The harm done by ordinary criminals, murderers, gangsters, and thieves is negligible in comparison with the agony inflicted upon human beings by the professional 'do-gooders' who attempt to set themselves up as gods on earth and who would ruthlessly force their views on all others—with the abiding assurance that the end justifies the means." (pg. 40-1)

These same people keep us from getting our needed energy by stopping the building of dams on our rivers, or building nuclear or coal fired plants. They also stop the building of pipelines to transport our oil for fear of stirring up a little tundra or the changing the sex life of the caribou.

He was preceded in death by his parents, Pierce and Lucy Haney and two brothers, Ex and Ivan Haney.
