

**DISPLAYING A NECKPIECE**, one of many which he made himself from gems, Jack Ray talks of his hobby, rock collecting. Gem lovers are full of creative ideas for the uses of rocks and gems.

### Democratic Telethon Successful In County

Ruby Gillette, Chairman of the Malheur County Democratic Committee, announced today that the National Telethon pledges from Malheur and Payette citizens were just excellent. Malheur County pledges totaled \$920.50 and Payette County totaled \$290.00. Mrs. Gillette stated that she is highly appreciative of the local response and was especially pleased to see that a number of young people pledged their allowances to help the Democratic party. There were over 120 individual pledges received by the

telephone operators in Malheur County and many of the people expressed an interest in working toward a good two party system, both locally and nationally. Mrs. Gillette states she will be contacting the people who made pledges to see if they will be able to work on the County Committee as well as help our County to become more aware of the issues facing the community and the nation.

Mrs. Gillette says anyone who did not have an opportunity to make a pledge to the telethon can call telephone number 889-8232 and

**TWO FASCINATING GEODES**, one of which bears a remarkable resemblance to an owl, are among the collection of Emil Wohlcke. He tells a wonderful story of a

woman who, after repeated inspection of the owl bookends, decided that she could not buy the set because every time she entered the room the eyes looked at her.

By Dale Witt

**NEWELL HEIGHTS** - Mr. and Mrs. Wess Simpson of North Bend, Oregon came Tuesday afternoon to visit his brother, Mr. and Mrs. Ray Simpson and other relatives. Mr. and Mrs. Wess Simpson and Mr. and Mrs. Ray Simpson were Tuesday dinner guests of Mr. and Mrs. Alfred Simpson.

Friday, Mr. and Mrs. Johnnie Eason and Jon Jon of Boise and Mr. and Mrs. Wess Simpson and Mr. and Mrs. Ray Simpson and Gilbert Deffenbaugh were luncheon guests of Mr. and Mrs. Alfred Simpson.

Mrs. Bill Webb and Pauline King went to Payette Lake at McCall Wednesday. They visited Mrs. Margaret Payne at the Bar Nothing until Friday. Mrs. Payne is staying at her cabin during

someone will be available to take their pledge. Mrs. Gillette also added that any pledges to a political party, up to a maximum of \$100 for a couple or \$50 for a single person, are a "tax credit" on state and federal income taxes. This means for example, that if a couple owes \$350 in taxes they can deduct their political contribution from the taxes owed up to the maximum allowed.

If there are questions, Mrs. Gillette says she would be available and she can be reached at 889-5991.

the hot weather and has been having company drop in and visit.

Saturday, Mr. and Mrs. Wess Simpson and Ray Simpson went fishing at the Malheur Reservoir.

Mrs. Marie Moore and Mr. and Mrs. Henry Moore attended the Adrian Class reunion at the Park Sunday.

Mrs. Richard Fenn and family returned to their home in Quincy, Washington, Thursday after spending a week visiting Mrs. Carl Fenn and other relatives.

Mr. and Mrs. Louis Fenn and family of Roseburg, Oregon and Donald Fenn of

### Extension Service

Several factors contribute to the poor conditions of many lawns this time of year. These include insect damage, insufficient irrigation, too little fertilizer and the fact that blue grass, the predominant lawn grass grown in the area, does not grow very well during hot weather.

Many lack proper fertilization. This relates especially to nitrogen. The grass has a yellow green look and grass around the "dog spots" will show taller and darker green indicating the nitrogen deficiency in the rest of the lawn. Blue grass is a heavy nitrogen feeder and requires about 1 pound of nitrogen per 1000 square feet per month. This is equivalent of about 5 pounds of ammonium sulphate per month.

Still another factor to consider is grass cutting height. Blue grass needs extra top growth to keep the root system healthy. Consider cutting the grass at about 3 inches in height during the hot season. The lawn may look a little shaggy, but should withstand the heat better than those that are manicured.

As we near grain harvest time, perhaps we should think about properly cleaning our storage facilities to eliminate the possibility of weevil contamination of stored grain. Storage area should be thoroughly swept clean, then sprayed with a good insecticide, such as Malathion to kill any weevil in cracks and other hiding places. A little time spent this way could well make the difference between good and poor grain when it's taken out of storage.

Eugene came last Sunday evening and visited Mr. and Mrs. Alfred Simpson and stayed until Monday evening.

Sunday evening callers in the Alfred Simpson home were Mr. and Mrs. Gene Simpson and Cindy, Mr. and Mrs. Wesley Walker and family, Fonda Daughterty, Donna Martin and Mrs. Ida Fenn.

Monday, Mr. and Mrs. Johnnie Eason of Boise brought Alfred Simpson home from St. Alphonsus Hospital. Alfred will return Monday for more tests.

Tuesday dinner guests of Mr. and Mrs. Alfred Simpson were Steven and Rodney Fenn of Quincy, Washington. They left for home Thursday morning.

Saturday afternoon callers of Mr. and Mrs. Jack Ward were Mr. and Mrs. Alfred Simpson. They later were evening dinner guests of Mr. and Mrs. Marion York in Vale and Francine and Paula returned home with them.

**PERCHED ATOP A 95-POUND THUNDEREGG** belonging to Emil Wohlcke is a set of bookends. The pattern, similar to the shape of a donkey, caused Emil to call the set his "Democrat Egg."

### Favorite Recipes

#### Jello Dessert—The Soul of Summer

The summer has many pleasures, not the least of which are cool, light attractive foods. Gelatine takes the bake out of cheesecake, a no-bake, no-risk soufflé becomes a snap or a cocktail mold can do the honors at a bridal shower. Because there is reason to believe that less calories mean great taste, Knox gelatine has created a recipe booklet "The Delightful Dozen," yours for the asking. The recipes made with low-calorie fruits and vegetables, juices, skim milk, and yogurt, etc. Write to: KNOX Gelatin, Dept. LCR, Thomas J. Lipton, Inc., 800 Sylvan Avenue, Englewood Cliffs, New Jersey 07632.

If you chill a gelatine mixture in the same stainless steel or enameled metal saucepan in which you dissolved the gelatine, the mixture will jell faster. Forget it in the fridge?—don't panic—Jello is resilient. Place the saucepan over low heat and stir gently until the mixture is the right consistency.

Unmolding blues? Dip a container into warm water for about five seconds. Carefully loosen the gel from side of container with a tip of a sharp knife. Invert the serving dish on container and turn over to right side up.

When using unflavored gelatine the only "cooking"

required is dissolving the granules in liquid over low heat. Gelatine is dissolved when there are no visible granules left. Too vigorous stirring will splash the granules and leave them on the side of the pan. Be sure all granules have disappeared before going on to the next step—otherwise the mold won't get firm!

A no-bake, no-risk soufflé is a great way to take advantage of fresh blueberries. The gelatine base keeps the creamy mixture firm but light. Lemon Berry Soufflé is high, wide and handsome.

#### Lemon Berry Soufflé

2 env. unflavored gelatine  
1/2 cup sugar  
4 eggs, separated  
2 1/2 cups water  
1/2 cup lemon juice  
1 tbs. grated lemon peel  
1 cup heavy cream, whipped  
1 pint blueberries (2cups)  
In medium saucepan, mix unflavored gelatine and 1/2 cup sugar; blend in egg yolks beaten with water. Stir over low heat until gelatine dissolves, about five minutes. Add lemon juice and peel; chill, stirring occasionally, until mixture mounds slightly when dropped from spoon.

In large bowl, beat egg whites until soft peaks form; gradually add remaining 1/2 cup sugar and beat until stiff. Fold in gelatine mixture, whipped cream, and blueberries. Turn into 1 1/2 quart soufflé dish with 2 inch collar and chill until firm, about 4 hours. Serves 8.
