

City Report

Streets
A street plan was completed of all city thoroughfares to become a basis of future capital improvements. A fund request was submitted to State to pave Commercial Avenue under two separate proposals.

Chip sealing during the year included 7th Street from Locust to Lion's Park, and Ennis and 6th Street adjacent to the Park. Good to Park on 7th Street as well as one and half blocks on Thompson.

Drainage
Put pipe drains in Good and 4th Street and Bower and 6th Street intersections and connected them to the State's drain line in Nyssa.

French drained low spots on Thompson Avenue, several on North 1st St. and North 7th Street. We did connect 6th and Park to the sewer line cause there was no other access way.

Water
A new well which produces approximately 475 gallons per minute was completed and added to the system in July. Storage tank, distribution line and booster station were completed by Van Degrift Construction Company in Boise, Idaho and Pittsburgh Des Moines Steel Company of Ogden, Utah.

The Water Grid in Miner's Addition was completely looped with a 6" main from 11th Street to 9th Street on both Bower and Ehrgood with all the proper valves and fire hydrants. Two new hydrants were also installed during this period.

Fire Department
The Department fought a major conflagration in the High School fire with over three million gallons of water used during the disaster.

The Department ably conducted itself in numerous other unique fire situations which included the elevator fire at Farmer's Feed and Seed Company. Twenty-four alarms were answered within the City.

Fire Inspections
A total of 32 inspections were completed in the fire zone and the temporary facilities the schools were using. Most discrepancies were no fire extinguishers or just poor housekeeping.

Police Department
The Police Department made several changes with the initiation of the 24-hour dispatching and lockup service. A more complete and accurate set of files and records were established.

UCR (Uniform Crime Reports) are fed into the state computer and a monthly data sheet giving a complete breakdown of activities occurring during the month is received.

Six dispatch personnel, (funded entirely through CETA) were trained while two of these received additional training at the Dispatcher's Training School at the Portland University, again funded by CETA.

Approximately \$14,000 has been received in wages by these individuals through CETA.

A reduction of 8,500 miles is reflected over last year, due to prisoners no longer being transported to Vale.

Two trained officers were lost during the past year.

Library
The Library Department carried out all programs this year including monthly kindergarten classes.

Spring visits from Primary, Grade School and Day Care totaled 1,500 students here. Space was provided for tutors, high school students and Junior High School students. We had 2,700 students during the year with special request, 1,800 adults reading non-circulating material.

Our Administrative Assistant, Mrs. Emi Hirai, is on the area board for our Senior Citizen groups, and the Librarian is on the Continuing Education Board in the area.

General
Significant in this report is the fact that the City finished the year in excess of \$11,000.00 in the black and that the City's tax rate dropped fifty seven cents during the same period.

Forest Grove Dairyman Heads Milk Commission

Donald Scott of Forest Grove has been elected chairman of the Oregon Dairy Products Commission. He succeeds George Gilman of Medford, who is retiring from the seven-member commission.

The ODPC represents the state's dairymen through industry-funded promotion programs for milk products.

Other officers of the statewide commodity commission include Earl Meier of Boring, vice chairman, and Joe Payne of Vale, secretary-treasurer.

Scott is owner of a 100-cow dairy and horse operation near Forest Grove and

partner in S&S Farms of Washington County which consists of a 300-cow dairy, beef feedlot and 1200 acres of cropland.

He has served two terms as president of the Oregon Agribusiness Council and in 1970 was selected Outstanding young Farmer of the Nation. He has also served as past president of the Oregon Dairy Council and the Oregon Dairymen's Association.

Both Payne and Meier were re-elected to the "COW" board, representing the ODPC in tri-state advertising programs in California, Oregon and Washington.

Payne is a past chairman of the ODPC and Meier earlier served as secretary-treasurer

Favorite Recipes

Peach Cobbler

1/4 cup sugar
1/2 cup milk
4 tablespoons butter
1/2 teaspoon baking powder
1 cup flour
Combine sugar and butter together, add dry ingredients with milk. Pour on top of peaches.
Mix 1 cup sugar, 1 tablespoon cornstarch, 1/4 teaspoon salt and 1 cup boiling water, pour over top. Bake at 325 degrees for 50 minutes.

Adrian Teacher Of the Week

Mrs. Bill (Ruth) Looney is starting her second year at Adrian Elementary School, where she teaches second

grade. She and her husband, Bill, owned and operated Looney's Shopping Center in Adrian for several years and previous to that she taught school for 13 years.

The Looney's have four children, Mary is a junior at The College of Idaho in Caldwell; Bill Jr. teaches college at Moses Lake, Washington; Cliff is a lawyer at Vale; and David is with the Federal Probation office in Eugene.

During the summer Ruth and her husband built a rock wall that is a work of art. They took a trip in July and visited their son David in Eugene and relatives in Seaside and Portland, Oregon and Buckley, Washington. They also visited their son Bill and family at Moses Lake.
