

Cheese Savories Disappear Fast

Twist Swirl and Roll Cheese Into Shape For Parties

Favorite cheeses in Oregon—cheddar, monterey jack and camembert—are natural choices for whetting the appetite. With their high protein content they make satisfying nibbles. And because cheese contains milk's important nutrients in concentrated form, they are valuable snack foods. Here just in time for holiday entertaining are some hot and cold cheese appetizer ideas. The favorite holiday beverage to serve with them is homemade or dairy-made eggnog.

CHEESE PUFF PASTRIES

- 2 tablespoons butter, softened
- 1 cup grated mild cheddar cheese
- 1/8 teaspoon salt
- 2 teaspoons prepared Dijon mustard
- 1 teaspoon dry minced parsley
- 1 teaspoon paprika
- 1 (10-ounce) package frozen patty shells

Beat softened butter with cheese, salt, mustard, parsley and paprika. Thaw patty shells and let dough come to room temperature. Roll out on floured surface.

Spread with filling and shape into spirals, crescents or turnovers as below. Arrange shaped pieces in shallow baking pan with edge. Bake in 425 deg. oven 10 minutes or until golden. Makes about 3 dozen assorted shapes.

Spirals: Stack and roll 2 patty shells to 9x7-inch rectangle. Spread with 1/2 cheese mixture. Roll up from long side. Chill then slice into 14 to 16 spirals.

Crescents: Stack and roll 2 patty shells to 10-inch round. Spread round with 1/2 cheese mixture and cut into 12 pie shaped wedges. Roll each wedge, starting from wide side opposite point. Curve each into crescent.

Turnovers: Stack and roll 2 patty shells to 9-inch square. Cut into 9 squares. Place dab of remaining cheese mixture in center of each. Fold dough over, join opposite corners and pinch edges together to enclose filling.

Notes: Baked, cooled pieces may be frozen if desired. To reheat, place frozen puffs in shallow pan. Bake in 425 deg. oven 5 minutes or until heated through.

Meetings The Circuit Writer Planned

All have, at one time or another, watched ABC's Howard Cosell and listened wonderingly to his staggering vocabulary. I thought you might be relieved to know that his example in the drawn-out use of words is something that any of us can achieve.

I realize most are probably interested in using as few words as required. While hunting, I passed one field with no fewer than five signs posted on one corner fence post. "No Hunting", "No Trespassing", "Posted", "Keep-Off", "No Through Traffic", all greeted me. The next farmer, however, was one who probably wanted to save words, time and ink. His single sign read, "No Anything". For the few of you, however, who wish to emulate Big Howard and Big Howard's mouth, here are some examples that should provide a starting point for your study of words. These are both actual sayings I have seen. I suggest you memorize them, and the next time Monday Night Football is on the air yell them back at Howard as he begins one of his extrapolations.

Sighted on a blackboard at Southwestern College, Winfield, Kansas. "I know you believe you understand what you think I said, but I'm not sure you realize that what you heard is not what I meant!" Most have seen or heard that before, but what was underneath it on the same board was a new one for me: "Does that mean you affirm that which is adeply acceptably applicable? Or do you adapt that applicability adeply into an adroit acceptability, applying implied abilities above the Almighty's?" Take that, Howie!!

Stopping at an un-named restaurant, not here, the following greeted me from the menu: "Our finest choice

prime grade AA selection of delicate sirloin tenderized in a mincing fashion by our chef and sauted with our own special mixture of nature's forest grown vegetables..... \$5.95." Not having the money, I went down the street and had, you guessed it, "Hamburger and mushrooms....\$1.50."

I guarantee that with little practice and these examples as your guides you can soon have Mr. Charm against the ropes and rapidly backing off.

Before I forget, I and mine wish you and yours a treatful Thanksgiving, with both deep meaning and spiritual significance. I also wish your tiny taste buds, that tenaciously intertwine with your tongue, a temptuous tingling timely torrent of turkey, tying those tiny tenacles in twists of delight! Happy Thanksgiving!

Mr. and Mrs. Al Perry of Pasco were Tuesday visitors in the Jim Osborn home. They were on their way home from a visit in Utah.

New Car Financing and FirstLoan. It's a natural match.

If you've been waiting for the new model cars, there's good news! They're now arriving in the showrooms of our fine Nyssa dealers. And, if you're looking for a better way to finance a new car or a better car, there's more good news. It's called **FirstLoan**.

A simple interest consumer loan, **FirstLoan** offers just about everything you've wanted in car financing, but couldn't find until now. In addition to moderate rates and flexible terms, **FirstLoan** can actually save you money every time you pay early or make a double payment. That's because interest is figured each month on your remaining balance. In fact, you can pay off the entire loan ahead of time and really save on interest.

If you make a payment late, there's no late charge with **FirstLoan**. Instead, you pay only the interest for those

days the payment is not made on time.

FirstLoan also ends the inconvenience of a payment book. In its place, you receive a simple, concise statement every month, about ten days before your payment is due. It tells you at a glance how much money you still owe and how much interest you've paid, so you always know where you stand.

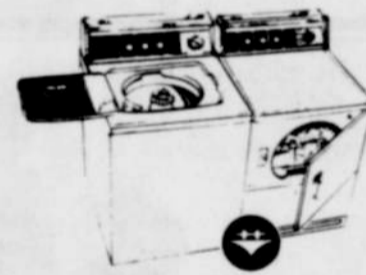

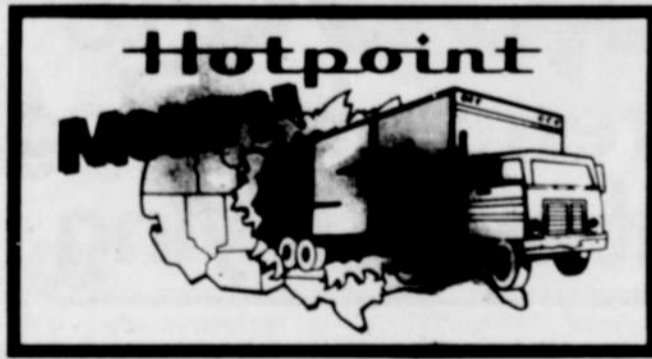

When you find the car of your dreams, come in and talk to a specialist, Loan Officer William Worley, at our Nyssa branch. We can save you money with a **FirstLoan**.

We'd like to get to know you.
