

Biology II Students

BILL TENSEN IS studying the effects of fertilizers on algae growth in the Snake River.

DUSTIN KASSMAN IS shown with his extraction equipment for removing pheromones from cockroaches.

BRIAN PIERCY IS studying the osinoregulation process in cray fish and freshwater snails to study their adjustment to salt water.

ERIC STUNZ IS shown setting up his contaminated water solutions which have water hyacinths growing in them. It is hoped that the plant will remove the contaminating chemicals.

Adrian PTA To Hold Open House

The Adrian PTA will meet Thursday, January 15, in the Adrian High School Gymnasium at 7:30 p.m.

Everyone is invited to attend, as this meeting will highlight the open house of the High School Library, during which time Kathy Suydam, librarian, will introduce her new program of having the school library open to the public every other week. This should be helpful and encourage everyone to use these facilities.

Events Around Adrian

ADRIAN - Mr. and Mrs. Keven Rountree of Ontario spent the weekend with her parents, Mr. and Mrs. Oliver Freel.
