# 48 month auto loans

**1st time** During the past five years the retail price of an average car in America rose 37%. This means that a car that cost \$4,000 in 1971 costs \$5,400 in 1976.

The way we see it, we can't do anything about bringing down the price you have to pay these days, but we sure can do something about stretching out the time you have to pay it in. That's why we now offer 48-month auto loans.

**Up to 48 months to pay** That's the key to lower installments for you. Depending on

the purchase price we can give you up to 48 months to pay for the new car, van, camper or light truck you buy. How do you go about it? Easy. Just come to any of our 143 branches throughout the state and ask about our simple-interest FirstLoan for

autos.
