THE JOBS PROGRAM CON GAME

Seldom a day goes by without one or more sanctimonious Representatives in Washington expounding on the subject of "jobs for the unemployed." It is, they maintain, a prime responsibility of government to "provide jobs."

The hoax that government can "create" or "provide" jobs needs exposure. Only business and industry can create or provide jobs. If the good Congressmen really want to reduce unemployment, then let them invest their money in a farm, a factory, or a retail store; let them buy the equipment, machinery and necessary supplies; and then let them hire workers to operate the farm, factory, or store, offering products and services that people want and need. Real jobs are created by putting people to work providing useful goods and services.

Instead of providing a genuine jobs program, however, our brilliant Congress came up with a "Public Service Job program." The idea was that by putting people on the public payroll — i.e., paid by the taxpayers — "unemployment" could be reduced.

But what kind of jobs were provided? In one state, eight new positions were set up in the Highway Department. The exact function of the "workers" was not clear; but it was noticed that every one of them had been active political campaigners and supporters of the Governor.

In one city, two hundred "public service job" employees were actually "put to work" delivering campaign material door-to-door for a candidate for the office of Mayor. In another state, such poor records were kept that auditors say there is no way to know where the money went.

And how much money was spent? Well, for the current fiscal year it was \$2.7 billion dollars.

One would think that such wide-spread abuses would tend to discourage Congress from continuing the so-called "jobs" program.

Not so. So anxious are the "liberal" Representatives to boast about what they have done (with your money) to "create" jobs, that they are now planning to increase the spending for "public service jobs" to seven billion dollars.

To complete the hoax, those Congressmen pushing for the increase in "public service jobs" spending are the very same Congressmen who have voted for huge cuts in our national defense budget, which will bring about a reduction of 71,000 civilian defense jobs between now and Sept. 30, 1977. Thus, 71,000 people now gainfully employed in the very important business of our national defense, will be laid off.

Fortunately for the future and the security of the United States (as well as the protection of our pocketbooks) there is an election coming up this fall.

Hiring Practices Discussed

Louis J. Wettstein, active member of the Malheur County Farm Bureau and long-time Ontario farmer, spoke to a group of 38 unemployed fathers who are currently receiving welfare in Malheur County. The meeting, held March 11 in the Malheur County Library at Ontario, was sponsored by the Ontario Branch Office of the State Public Welfare Division.

"An Employer's Expectations When Hiring" was the topic discussed by Wettstein. A question and answer session followed his talk. He recommended that an understanding of the rate of pay for each job be cleared at the initial hiring contact to avoid any misunderstanding. Wettstein also listed some of the things he expected in an employee, including dependability and an interest in doing a good job. He said he would prefer an untrained worker who would listen carefully to instructions and be willing to learn, than one who felt he already knew the job so well he didn't need to follow directions.

George Shoemaker of Nampa visited Thursday with Mr. and Mrs. Roy Rookstool. Mrs. Sarah Yingling of Casper, Woming came Friday for a visit with her sister, Mrs. Roy Rookstool.

Citizens For Yraguen Kick Off Campaign

"Citizens for Yraguen" organizational activities moved ahead this week when approximately 60 persons met to kickoff Frank Yraguen's campaign for Circuit Court Judge.

Yraguen, Malheur county's District Attorney since 1971, seeks election to the non-partisan position now held by Jeff Dorroh.

Addressing a committee caucus at the Twilight Cafe, Yraguen said he was "sincerely warmed and nearly overwhelmed" by the heavy turnout and display of support. Volunteers came from Nyssa, Vale, Ontario and surrounding areas. The group met under direction of Jacob Fischer,

Kathleen B. Sallee

Kathleen Brooke Sallee, 8, died Wednesday, March 10, 1976, in the Sacramento Medical Center as a result of grievous injuries suffered in an automobile accident Mar. 2. A mass was offered at St. James Catholic Church.

Katie was a third grader at West Davis elementary school where she loved math, reading, and kickball. She often described herself as an "active girl" but still liked quiet times to read and to draw. She was a piano student who rarely had to be encouraged to practice but her real love was where she excelled as an "A" swimmer with the Davis Aquadarts.

She also was a member of the Davis Divers and attended weekly catechism. During her short life she touched many lives, gave much joy, and brought happiness to her parents, family, and friends. Because Katie loved life, her kidneys will be used to give life to others.

Survivors include her parents, Tom and Joan Sallee, two sisters, Kristie, 7, who was also injured in the crash but has recovered, and Claire, 5; her grandparents, George and Mary Sallee of Nyssa, Oregon and Hans and Mary Selke of Media, Pennsylvania.

Katie's family would prefer contributions in her memory to any one of the following: The Davis Aquadarts, Wells Fargo Bank, Davis for an annual award in her honor; The Sacramento Medical Center, in care of Donald Gray for refurbishing the parents room in the pediatric ward; The Davis Parent Nursery School Association 426 W. Eighth Street, Davis, for the Katie Sallee Scholarship Fund; Maryknoll Fathers, Maryknoll, New York 10545, for assistance to the poor of the world whom Katie always wanted to help.
